Disclaimers

**First half
2012**
27 July 2012

► This document contains further forward-looking statements that involve risks and uncertainties concerning the Group's expected growth and profitability in the future. Actual events or results may differ from those described in this document due to a number of risks and uncertainties that are described within the 2011 Reference Document filed with the Autorité des Marchés Financiers (AMF) on April 5th, 2012 under the registration number: D12-0288.

► Global Business Units include **Germany, France, United Kingdom & Ireland, Benelux** (The Netherlands, Belgium and Luxembourg), **Atos Worldline** (French, German, Belgian, Asian and Indian subsidiaries), **Central & Eastern Europe** (CEE: Austria, Bulgaria, Croatia, Serbia, Poland, Czech Republic, Russia, Romania, Slovakia and Turkey), **North America** (NAM: USA and Canada), **North & South West Europe** (N&SW Europe: Switzerland, Italy, Denmark, Finland, Sweden & Greece), **Iberia** (Spain and Portugal), and **Other Business Units** including Major Events (including MSL), Latin America (Brazil, Argentina, Mexico, Colombia and Chile), Asia Pacific (Japan, China, Hong Kong, Singapore, Malaysia, Indonesia, Philippines, Taiwan, Thailand and Australia), IMEA (India, Middle East, Morocco and South Africa), blueKiwi and Atos Worldgrid (including E-Utile).

► Revenue organic growth is presented at constant scope and exchange rates.

► Adjusted (non diluted) Earnings Per Share (EPS) represents the net income adjusted of restructuring, rationalization and customer relationship amortization, net of tax, divided by the weighted average number of shares during the year.

► The AtoS proforma financial information for the 18 months to 30 June 2011 comprises the results of the former Atos Origin perimeter and the acquired scope of the ex Siemens IT Services (SIS), as if AtoS had been in existence since 1 January 2010. The information is provided as guidance only and is unaudited. The key assumptions used in the preparation of the information are as follows:

- The proforma information has been prepared using accounting policies consistent with those used in the historic Atos Origin interim and year-end financial statements;
- Proforma tax is based on the estimated effective rate of tax for AtoS for the relevant periods applied to proforma profit before taxation.
- The proforma Profit and Loss account excludes significant exceptional items as being non-recurring, notably provisions on contract risks recorded in the first semester 2011.

► The Group has decided to exclude all acquisitions and disposals from the Group free cash flow and not only the significant ones, as it was previously the case. Non "Significant" was defined by the rule "which price is below 0.15 % of Group External Revenue". The objective of such a change is to provide a more adequate assessment of the Group operational performance as well as to align the Free Cash Flow definition on the market position and main competitors. This change has no effect on the Group free cash flow reported in 2011.

► The half-year condensed financial statements are unaudited. They have been subject to a limited review by the statutory auditors and the report is in the process of being issued.
