Strengthening footprint in the US

Bull acquisition

Our clients' transformation challenges...

Our objective at Atos is to empower our clients on their digital journey by applying our in-depth market knowledge and portfolio of IT services.

^{*2014} statutory figures

... supported by our business divisions

We are continually developing leading edge solutions and business-critical IT services to technologies.

Consulting

Transforming organizations with top-of-the-wave innovations

Atos Consulting deploys its highly skilled experts to help our clients prepare for and adapt quickly to changes in the market, outperform competitors and provide outstanding services to their customers.

Systems Integration

Delivering seamless business systems for operational excellence

Our teams manage all aspects of solution design and implementation, and work with our clients to develop, implement, and maintain systems that will support and enhance their overall business strategy. Our global delivery model adds quality, scalability, predictability and flexibility.

Managed Services

Creating business benefits through intelligently managed IT

We are a leading provider of managed IT services worldwide and we have in-depth expertise in workplace management, managed infrastructure, application operations, network and communications. Within our project service unit we deliver infrastructure consult, design and build capabilities to our customers. Our solutions provide value, consistency and agility.

Cloud & Enterprise Software

Cloud Services as a business strategy for core processes

Atos is the number one European player in Private Cloud services. Through Canopy, the Atos Cloud company, we deliver a full-spectrum of Cloud service – from modeling and realization to individual Cloud – based on delivery models for Infrastructure, Platforms and Software.

Transactional & Payment Services

Unrivalled expertise in delivering e-payments and digital solutions

Worldline is a global leader in e-payment and transactional services and is actively involved in Merchant Services & Terminals, Mobility & e-Transactional Services, and Financial Processing Services & Software Licensing. With over 40 years of experience, Worldline's sophisticated solutions handle millions of highly critical transactions between its clients, their partners and their customers on digital platforms.

Big Data and Cybersecurity

Combining Big Data and Security as a business differentiator

Atos works with organizations in the private and public sectors, including defense, manufacturing, telecommunications and financial services, to generate value from their growing volumes of data. Through its Bull technologies, Atos develops the high performance computing platforms, security solutions, software appliances and services allowing its customers to monetize and protect their information assets. Big Data and Security federates Atos global R&D efforts to grow the Business Technologists' IP capabilities and portfolio.

Sustainability

Sustainability is at the core of our business strategy.

Sustainability is at the heart of Atos' development and growth strategy. Our leadership is recognized by entities such as the Global Reporting Initiative (GRI), Great Place to Work as well as the CDP, the Dow Jones Sustainability Indices and EcoVadis.

In 2014, we achieved 46% of carbon intensity reduction against the 50% target by 2015. All services hosted by Atos are also carbon neutral and we continue successfully to implement the ISO 14001 program in all our major sites.

In addition, we are the first IT company to obtain the "Binding Corporate Rules" approval from European data protection authorities for processing personal data.

Our enhanced digital technology capabilities jointly developed with global partnerships and reinforced with the acquisition of Bull in areas such as Big Data, Cloud and Security are global strength to provide its customers and the society at large with the innovations they need for a sustainable growth.

Olympic Games

More than 20 years of long lasting relationship.

We are proud to be the Worldwide Information Technol- London 2012, Sochi 2014 and Rio 2016. As the Worldogy Partner for the Olympic and Paralympic Games. Our contract with the Olympic Games is the largest sports-related IT contract ever awarded, and covers the Olympic Games in Salt Lake City 2002, Athens 2004, Torino 2006, Beijing 2008, Vancouver 2010,

wide IT Partner of the International Olympic Committee, we are responsible for leading the consortium of technology partners to design, build and operate the massive, mission-critical IT infrastructure and solutions that will support the Olympic Games.
