
DirX Identity Update

Two-day training course on the new features of DirX Identity V8.3

DirX Identity provides a comprehensive, process-driven, customizable, cloud-ready, scalable and highly-available identity management solution for enterprises and organizations. It delivers overall identity and access governance functionality seamlessly integrated with automated provisioning. Features include life-cycle management for users and roles, cross-platform and rule-based provisioning in real-time, Web-based user self-service and delegated administration, request workflows, access certification, password management, metadirectory and auditing and reporting.

This course provides training for selected new features of DirX Identity V8.3, V8.2C and V8.2B. The course is well balanced between theoretical concepts and practical exercises.

Content

- Extension of Java-based workflows for ADS/Exchange provisioning with Power Shell
- Extension of Java-based workflows with external programs and scripts
- Improved usability of Web Center
- Management of personas and functional users
- CSV import/export and delta import/export with Java real-time workflows
- Dynamic load balancing of Java provisioning real-time workflows
- Exercises

Benefits for the trainees

The participants will get a detailed overview of what has changed in DirX Identity V8.3, V8.2C and V8.2B compared to V8.2. They will learn to setup multiple Java servers for scaling DirX Identity and to administer and monitor load balancing, to extend ADS Workflows with Power Shell scripts, to manage personas and functional users, as well as to configure Java real-time workflows for delta import/export. The new features of Web Center will be presented.

Target Group

Technical consultants, system integrators, service staff, technical project manager

Prerequisites

- The participant is able to administer and work with Microsoft Windows Server 2008 or 2012.
- The participant is an experienced administrator and user of DirX Directory and DirX Identity V8.2.
- The participant has successfully passed the courses DirX Directory, DirX Identity 1 and 2.

Teaching method

Presentations, group exercises, discussions, demonstrations

Instructors

The instructors are experienced employees of Atos or certified trainers for DirX Identity.

Duration

2 days
