

Digital Health Solutions Consulting

Providing the safest and most effective patient care is your top priority. En route to that goal, you're navigating a constant cycle of government mandates, complicated managed care contracts, quality-improvement programs, and innumerable mergers and acquisitions.

Atos Digital Health Solutions Consulting helps healthcare organizations clarify business objectives while pursuing safer, more effective healthcare that manages costs and engagement across the care continuum.

Our leadership team, consultants, and certified project and program managers bring years of practical and operational hospital experience to each engagement. Together, we'll work closely with you to deliver meaningful outcomes that support your organization's goals. Our team works shoulder-to-shoulder with your staff, sharing what we know openly. The knowledge transfer throughout the process improves skills and expertise among your team as well as ours.

We support a full spectrum of products and services across the healthcare enterprise.

Strategy, Cybersecurity, Population Health & Analytics Advisory Services

Program and Project Management

Build the methodology, processes and tools to support not only a consistent and repeatable approach to managing projects but also a sustainable project management office.

- PMP-certified leaders using our proven ProVantage methodology
- Registered Education Provider certification from the Project Management Institute
- Technical and operational subject matter expertise

Value-Based Care Transformation

Our proven outcome-driven approach maximizes your participation in value-based or shared savings programs.

- Assessments, guidance, project management and implementation of processes
- Data management for population health management programs
- Health information exchange (HIE) lifecycle management
- Electronic medical records connectivity and HIE portal optimization
- Data analytics solutions
- Accountable care organization (ACO) strategic assessments

Security Strategy

Refine your security strategy from every perspective, technical and non-technical. Atos healthcare security consulting provides analysis, testing and audit services. And we follow through with prescriptive security services executed through secure operations centers.

- Risk analysis
- Penetration testing
- Intrusion detection and prevention
- Health and Human Services (HHS) Office for Civil Rights (OCR) mock audits
- Security information and event management
- Crisis management
- Payment Card Industry (PCI) audit services

Ambulatory Support

With an understanding of the ever-changing dynamics of ambulatory practices, our consultants bring a great variety of credentials and experience to helping your organization improve patient care and quality of life:

- Vendor-agnostic or vendor-specific
- Clinicians and physician-practice administrators as well as healthcare IT experts

- Specialized in the unique needs of ambulatory practices
- Experienced in government regulations, hospital relationships, system integrations and insurance payments

Enterprise Business Strategy

Launch your enterprise to a new level of performance. We can partner with you to:

- Align business and IT goals, and find new ways to achieve them
- Translate strategies into optimized enterprise processes
- Seize new business and growth opportunities
- Identify and implement new technologies
- Manage change

We also provide education and training, staff augmentation, interim management, imaging and reporting.

Trusted partner for your **Digital Journey**

Atos

Revenue Cycle Expertise

Atos provides more than just revenue cycle management for the health and financial welfare of your organization. We enhance your financial performance through data-driven and ROI-focused process improvement services.

- Root-cause analysis and improvement roadmaps
- Insight into KPIs with actionable intelligence
- Holistic revenue cycle healing
- Efficiency improvements

Go-Live Solutions

We provide highly effective and cost-competitive teams of project managers, clinical and financial information systems trainers, analysts and coordinators to assist with one or all critical phases of an EHR system adoption.

- Pre go-live assessment, design and development
- Training needs assessment, design and development
- Scalable go-live support for clinicians and end users
- Post go-live support, optimization and training

Adoption and Simulation Programs

Master the daunting task of training hundreds of clinicians and end users on your new system with education programs that blend the proven synergy of instructor-led and self-paced online training.

Our online learning and training tools are customizable to your organization's unique tasks, user interfaces and workflows. And we also offer the groundbreaking Breakaway Method for engaged leadership, speed to proficiency, performance metrics and sustainment.

ERP and Workforce Management

Atos ERP combines proven healthcare best practices and technologies to create total operational efficiency for your organization.

Our multidisciplinary team will work with your stakeholders to assess, design and deliver ERP and workforce management solutions in partnership with all major vendors including:

- Lawson, SAP, Oracle and Microsoft for ERP
- Kronos, ADP, API and Workbrain for workforce management

Legacy and Technical Support

Transitioning to a new system can be complex and fraught with pitfalls. Atos-guided discovery programs energize your team and organize the steps of your conversion. Financial performance services can mitigate the impact on your revenue cycle, and vendor-specific support smooths your team's adoption of the new system.

Electronic Health Record (EHR) Application Expertise

End-user adoption. Clinical outcomes. Patient satisfaction. Financial performance. From project planning to post-live support, we have scalable solutions for EHR system implementations, optimizations and upgrades. Our vendor-specific expertise and industry experience improve quality of care as well as end-user and patient experience at each step of the application lifecycle.

Why Atos

Atos combines deep healthcare knowledge with global expertise in transforming consumer experiences to deliver a volume-to-value transition that refocuses care on the value of health. Our specialists help drive digital transformation by enabling better healthcare quality and lowering costs. We ensure data security and accessibility for our healthcare clients and help them optimize and integrate financial, clinical and network operations.
