Atos' vision

In its report, Journey 2020, Digital Shockwaves in Business, Atos explores digital disruption emanating from four main sources:

Business Models – through new sources of business value and partnership, driven by data and connectivity.

Ways of Working – resulting from changes in business processes and the very nature of work.

Disruptive Technologies – the developments that bring revolutionary changes to the “art of the possible” not just evolution.

Evolving Challenges – familiar challenges that need to be addressed with different perspectives as a result of the emergence of new influences.

Olympic and Paralympic Games

Worldwide IT Partner

Since 2001 Atos works with the International Olympic Committee to transfer the Games into a fully connected global experience. Atos and the IOC signed a partnership until 2024.
