

Atos Positioned as a Leader in both the Gartner Magic Quadrant for Data Center Outsourcing and Hybrid Infrastructure Managed Services for Europe and for North America

Paris, June 26, 2018 – Atos, a global leader in digital transformation today announces that it has been positioned as a Leader by Gartner in both its Magic Quadrant for Data Center Outsourcing and Hybrid Infrastructure Managed Services for Europe¹ and for North America².

This is the 7th consecutive year that Atos has been named a Leader in the Europe-focused report, and the second consecutive year in the North America-focused report.

This Magic Quadrant analyzed 20 service providers that offer data center outsourcing (DCO) and hybrid infrastructure managed service (HIMS) in Europe, and another 20 in North America, based on their completeness of vision and ability to execute.

Atos believes it has a strong ecosystem of partners, investments in [cognitive and automated solutions](#), [SAP private Cloud platform proposition](#), [Codex IoT set of offerings](#), and its tailored solutions based on standard delivery and migration capabilities to deliver an end-to-end solution.

"We're thrilled that Gartner has once again recognized our leading global position in Data Center and Infrastructure services. We feel that these rankings validate our ability to provide our clients with highly industrialized and automated end-to-end Hybrid Cloud and Datacenter services which are the true foundation for organizations looking to drive transformative digital change" said **Peter Pluim, Executive Vice President for Infrastructure and Data Management at Atos.**

The Hybrid Cloud is one of Atos' [four strategic digital pillars of growth](#), and the foundation of its digital transformation services for clients. [Atos recently announced a global partnership with Google Cloud](#), as its preferred public Cloud partner, which will see it deliver secure solutions to its clients including hybrid Cloud, machine learning and collaboration solutions to the enterprise.

[Atos' Canopy Orchestrated Hybrid Cloud](#) – Atos' Cloud service offering – provides businesses with highly industrialized and automated end-to-end Cloud services including:

- End-to-end application and infrastructure transformation
- End-to-end service orchestration and management over multiple Cloud types and

- End-to-end cloud security, ultimately, enhancing business agility and scale, all while ensuring compliance with respective security policies.
