

Atos named a 'Leader' in Cognitive IT Infrastructure Management by NelsonHall

Paris, July 3, 2018 – Atos, a global leader in digital transformation today announces that it has been identified as a 'Leader' by global research and advisory firm NelsonHall in its latest Vendor Evaluation & Assessment Tool (NEAT) for Cognitive IT Infrastructure Management¹.

Atos supports businesses in their digital transformation by providing the tools, services and consulting to enable them to successfully implement next-generation IT infrastructure and workplace services, such as those which use Artificial Intelligence (AI), cognitive, machine learning, deep learning, virtual agents, advanced analytics and robotics.

Atos' brand new **Codex AI Suite**, announced today, supports businesses and research institutes in the development, deployment and management of AI applications. It offers an easy-to-use, efficient and cost-effective solution to rapidly build and deploy AI applications, better extract value from data and develop new business opportunities.

Atos' end-to-end Digital Workplace offering includes a range of intelligent solutions to enhance the user experience. This includes the Atos Virtual Assistant (AVA), which leverages Cognicor's next-generation AI engine, to offer help and support for users, resulting in reduced downtime, increased user productivity, and cost reduction.

Commenting on this ranking, **John Laherty, Senior Research Analyst at NelsonHall**, said: "Atos is driving digital transformation across both infrastructure and service desk to improve business outcomes and end-user experience; it is embedding automation into all its standard infrastructure managed services offering for clients."

Elaborating on Atos' role as a leader in Cognitive IT Infrastructure Management services, **Peter Pluim, Head of Infrastructure & Data Management at Atos**, said: "We are delighted to be recognized as a Leader in Cognitive IT Infrastructure Management by NelsonHall. We offer an end-to-end approach to automation and robotics, thereby reducing costs, increasing quality, and creating differentiation with real-time insight for our clients."
