Reduce time to market

Optimize operations

Improved engagement with customers

Atos and Microsoft have moved the game forward to intelligent clouds: we provide a fully integrated service that enables new hybrid cloud applications

Smart Cloud Apps
Build smart cloud apps with AI capabilities, machine learning and cognitive services to engage with customers, free-up resources and reduce time-to-market.

Optimize cloud at the edge
by processing and analyzing data using common app logic. Get the best of cloud computing at the edge to unlock business value.

Security and compliance
A unified set of tools can overcome security and compliance concerns by preventing, detecting and responding to threats across your hybrid cloud, using a single view

Why Atos?

We integrate Azure Stack technology into operational services

We deliver an end-to-end service model

We make apps fit for the cloud

We actively drive platform use and adoption

We have world-class experience of large scale resilient solutions

Fast facts about MS Azure?

Twice as Fast

Microsoft's cloud is growing twice as fast as AWS (Source: CNBC)

93%

Azure experienced 93% growth during the first quarter of 2017 (Source: CNBC)
