

Intel Demo session
11 09 2019 – 17.30

The best client for business:
Intel® vPro™ Platform

Jan van Offeren
Industry Technical Specialist, Intel Benelux

The best client for business: Intel® vPro™ Platform

- ▶ The Intel® vPro™ platform has a track record of trust with a consistent, reliable cadence of standardized delivery of changes, while delivering the highest performing processors for business.
- ▶ This platform has built a reputation for world-class remote maintenance and wireless device manageability, while offering heavyweight protection of valuable corporate assets with strong hardware-enhanced security features.
- ▶ Get the latest updates on each of these areas, as well as client storage solutions and learn why the Intel® vPro™ platform is the client for business.

Jan van Offeren

Industry Technical Specialist, Intel Benelux

- ▶ As Technical Account Manager responsible for evangelizing technology, products and solutions in order to win edge, server and infrastructure opportunities @ focused accounts.
