

VMware Demo session  
11 09 2019 – 18.30

# Container Endgame with DPC, next from Atos and VMware

Terry Jones, Technical Alliance Manager - VMware  
Nick Law, Global Cloud Portfolio Manager – Atos

# The best client for business: Intel® vPro™ Platform

---

- ▶ As business demands that IT transform itself from cost centre into an enabler of business agility, there is a real danger that the introduction of container platforms such as Kubernetes will take us back to the dark ages of siloed IT that we have worked so hard to eliminate.
- ▶ With the introduction of DPC.next, Atos and VMware restore balance to the IT universe by bridging the gap between the old and the new, allowing enterprises to accelerate their cloud journey and transform into digital business leaders.
- ▶ At this innovation session you will see how Atos DPC.next, uses PKS from VMware to deliver a single agile platform that meets the diverging demands of both traditional and cloud native applications by delivering on-demand DevOps ready resources at the snap of a finger!
