

# Future Ready

To innovate last mile delivery

Trusted partner for your Digital Journey

**Atos**

# Future Ready to innovate last mile delivery

---

We propose smart vending machines and smart lockers to **reduce the health risks** for **employees** in the **logistics** industry as well as for their **customers** - close human contact needs to be avoided when it comes to the last mile delivery.

This leads to **new ways of delivering goods** or **picking up** return items.

# Future Ready to innovate last mile delivery

- Handover without physical contact
- Safe and reliable delivery and pickup
- Available 24/7 at the customer's location
- The OneCollect smart vending machines and smart lockers integrate with broader IT service management, and with other help and interaction services available to customers

OneCollect  
Vending

Provides quicker, easier, and direct access to everyday peripherals and IT consumables such as mice, keyboards, external storage, and laptop bags.

OneCollect  
Lockers

Provide quicker and easier access to collect/return high-value and larger items (e.g. laptops) and can provide a way for customers to issue and return locally used items.

# Thank you
