

## ATOS

 Overview

Atos is a French IT service provider that offers a range of SharePoint solutions. Its services cover consulting, integration with business solutions such as business intelligence and enterprise resource planning as well as a managed SharePoint service on various platforms.

 Strengths

**Pioneer in collaboration space:** With provocative theses on modern cooperation in companies, Atos has gained a lot of attention.

**Wide range of services:** Over the past year, Atos has been expanding its range of services (ongoing or managed), most of which are available as out-of-the-box solutions.

**High-level partnership with Microsoft:** Atos has acquired all Gold certifications from Microsoft.

**Renowned references:** Compared to last year, the firm has a longer list of relevant customer references for SharePoint projects.

**Large expert team:** Atos has deep expertise in implementing extensive and complex projects. This capability has further strengthened its position in the market.

 Caution

Atos is well positioned in the manufacturing industry in Germany. It still has potential to extend its capabilities to other sectors. The firm should consider accelerating its marketing activities outside the traditional market.

## 2020 ISG Provider Lens™ Leader

Atos, an opinion leader in the collaboration space, is continuing to strengthen its position as a leading provider of SharePoint services.
