

Atos Digital Security Event Series

IoT & OT Security challenges

Welcome to the 2nd edition

Cyril Dujardin

Head of Digital Security, Atos

Atos

Agenda

Welcome

Cyril Dujardin

**Atos Value
Proposition on
IoT & OT
Security**

Vieri Tenuta

**The Cyber
Journey to
Industry 4.0**

*Eyal Asila
&
Maria Jose Carvaja*

**Foundation of
Mobility Digital
Trust**

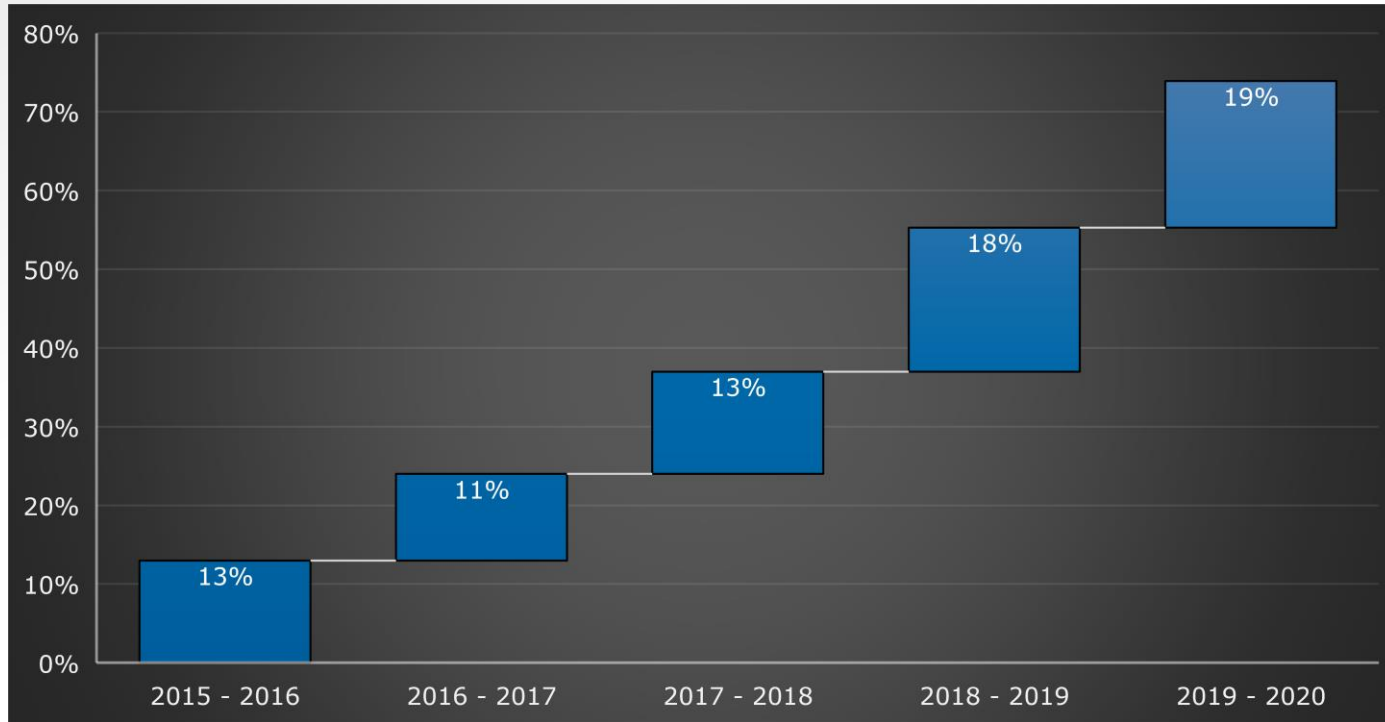

*Axel Sandot
&
Hafeda Bakhti*

**Challenges of OT
Security in
Critical
Infrastructure**

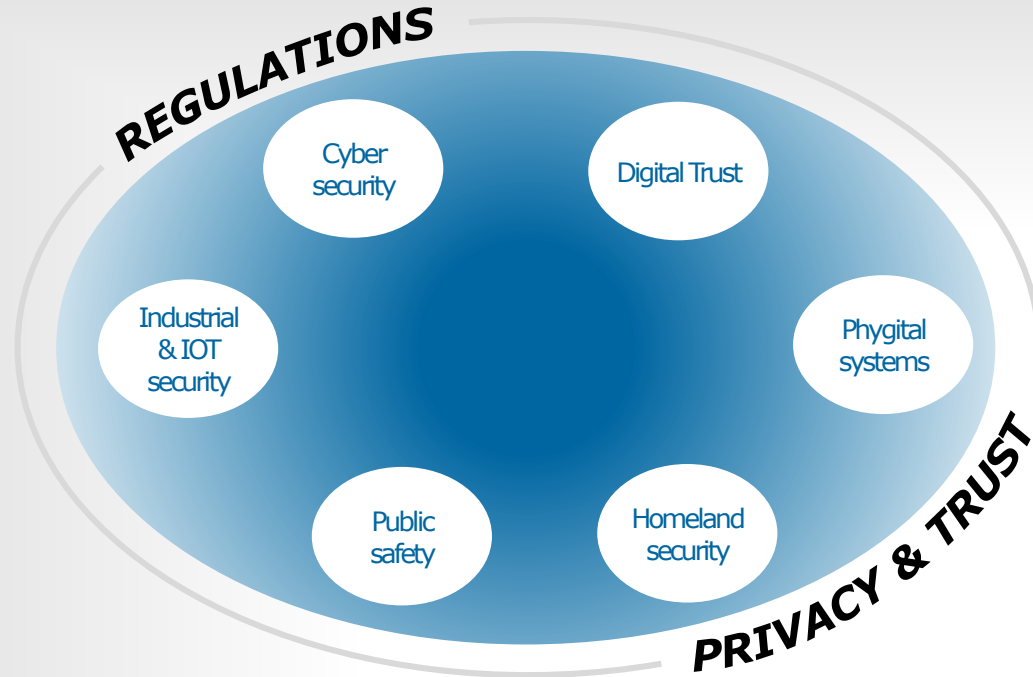

Mohammad Vizaie

Digital Security at the corner stone of BDS

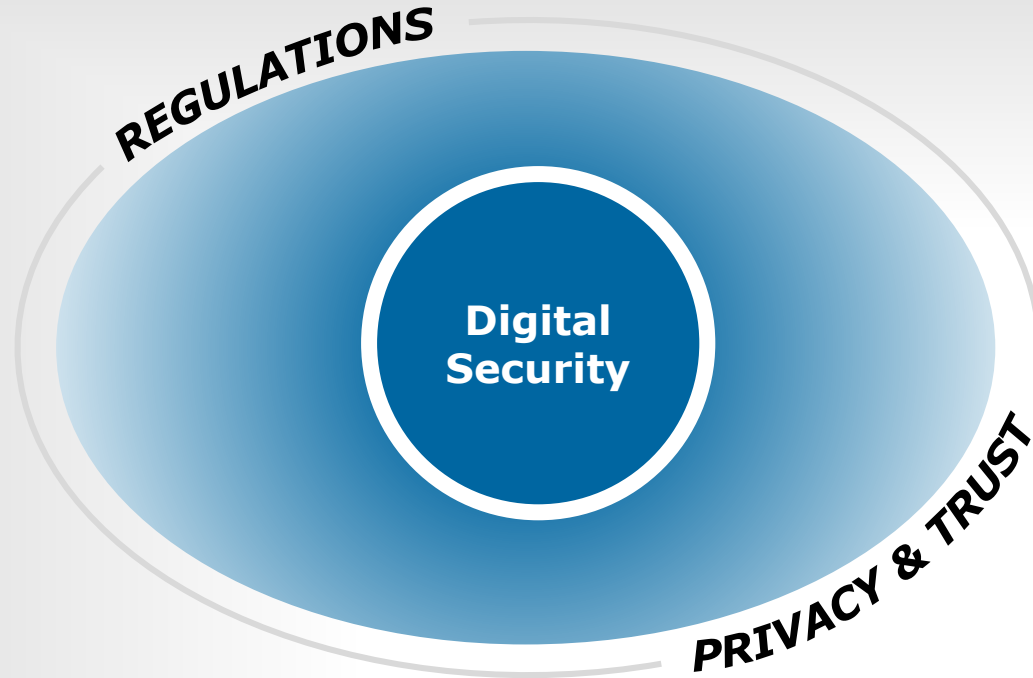

A proven track record of success: double digit growth for 5 years in a row

From a spread environment ...

... to a convergence

Digital Security - Raison d'être

Make the world a digitally safe place

We are the global trusted orchestrator between the virtual and real world, assuring digital innovation, defending critical assets and allow operational resilience between people and systems everywhere

IT/OT Convergence

- Interconnection between cyber and physical systems enables smart manufacturing while increasing cybersecurity risks
- Attacks methods used in IT also applies to OT environments
- Need single pane of glass to orchestrate and monitor the environments

Explosion of IoT devices

- Gain confidence in security posture
- Ensure data integrity
- Scalable & portable infrastructure

Next session

Atos Value Proposition on IoT & OT Security

Vieri Tenuta

Global Digital Security Offerings Manager for
IT/OT Convergence & IoT

Thank YOU

Trusted partner for your Digital Journey
