

Atos' Environmental Policy

8 high-level principles to manage our environmental footprint

Atos, as a tier-one company, seeks operational excellence and is committed to minimizing the environmental impact of its activities worldwide.

The Environmental Policy informs and commits all the Group's employees, managers, sub-contractors and suppliers. To achieve our commitments we adopt the following 8 high-level principles.

1

Identify and comply with applicable **regulations** and other relevant legal requirements relating to the environmental impacts of our activities.

2

Prevent **pollution**, protecting the environment by adopting appropriate procedures and controls to reduce our potential impact on the environment.

3

Consider and address everywhere in our company all **global issues / challenges** listed in our Policy, especially those concerning energy, travel and carbon emissions.

4

Identify and address locally potential and **specific local environmental issues** /challenges, if any.

5

Implement and monitor the necessary **initiatives and action plans** to steadily make progress (based on a continuous improvement approach) on our issues / challenges and reduce our impact.

6

Ensure that **our suppliers' goods and services** comply with this Policy and strongly contribute to our environmental progress.

7

Review for each issue / challenge, on a yearly basis, our **performance** against global and local environmental targets.

8

Communicate* with our internal and external stakeholders on our environmental performance.

Bruno Schenk
Chief Executive Officer
Atos Switzerland

Alexandra Knupe
Senior Vice President
Head of Group Corporate & Social Responsibility

Benjamin Bergeron
Head of Group Environmental Program
