ABOUT US

Reflex Logistics Solutions provides software and services to manage, orchestrate and optimize supply chain networks and companies' logistics flows in their warehouses (WMS), factories and stores.

For more than 25 years, its modular software suite has enabled reliable, efficient and agile logistics operations at more than 1,100 facilities worldwide. The company is strongly committed to innovation, designing flexible, open solutions that constantly adapt to the latest logistics challenges, thanks to close collaboration with more than 320 customers.

Reflex Logistics is part of Hardis Group, an international company with 1,200 employees that achieved a turnover of €119.4 million in 2020. Reflex Logistics has offices in France (head office), Spain, the Netherlands and Poland. It implements its solutions worldwide through a global network of integrator partners.

The analyst firm Gartner has recognized Hardis Group as one of the major WMS vendors in Europe for its Reflex WMS software.
