

Woop,
enhancing the delivery
experience for all traders.

woop
commerce in motion

YOUR SINGLE ENTRY POINT

For a delivery experience that's seamless, personalised and sustainable.

Woop organises every step of your shipping.

1

2

From a single interface or via API, Woop gives you access to **any type of carrier**, depending on your flows, your destinations and your strategy.

Bring national coverage to your local deliveries.

3

4

You can choose a **scalable solution** with new carriers every month.

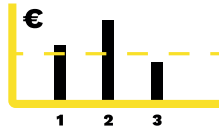

**Woop, the Delivery
Management System**

The SAAS platform managing every part of every transport solution that boosts your customer experience and operational efficiency.

Why Choose Woop?

Whatever your flow, Woop is at your side for all the shipping methods of your products, from a warehouse, a store with ship from store, a drive-thru or a pick-up/drop-off point.

Optimising your transport costs

Get competing bids from multiple carriers in real time and get the best transport deal for every order.

Precise and personalised management

With our dashboards and data analyses, manage the performance of your stores and carriers

Securing your transport capacities

Benefit from a transport capacity that's virtually infinite thanks to our huge catalogue of national and international carriers.

An extended customer experience

With our post-purchase module, you can offer a delivery experience that reflects your image and your customers throughout the delivery.

**Positive business
and a winning approach for all**
