

Unlocking Virtual Dimensions

Today's mega trends will have far reaching implications on organizations, their structures, durability and value they choose to bring into the world.

Climate change

Global pandemics

Economic globalization

Data sovereignty

Many of these trends are bound by our physical world. Digital has a significant role to play in unlocking opportunities.

By 2025,
75%
of the world's population or 6 billion people, will make network interactions. ¹

In 2025, each connected person will have at least one data interaction every
18
seconds. ²

+650
million people with disabilities worldwide, affects 15-20% of every country's population. ³

2021:
E&U launched regulatory framework for AI solutions. ⁴

By 2026,
97 M
new jobs to be created by AI by 2025. ⁵

By 2026,
3/4
of large enterprises will adopt intralogistics smart robots. ⁶

By 2025,
25%
of supply chain decisions will be made across "Intelligent Edge Ecosystems." ⁷

sustainable world

86%
want a more

equitable world

"Inequality in the modern world largely results from the uneven dissemination and adoption of technologies." ⁹

These trends, together with the opportunities of digital, are driving new ways to relate, conduct business, exist and define value.

New modes of operating

Intelligent, frictionless working. Freedom from physical boundaries. The power of predictive workflows.

New modes of relating

Converged meta experiences. Amplified human collaboration. Digital privacy and ethics.

New modes of value and business

Rapid rise of the data economy. New business ecosystems. Net positive value systems.

New modes of being

Human + machine convergence. Artificial general intelligence. Extreme virtual immersion.

Where do you begin your exploration and journey of virtual dimension impact?

- Understand organizational value creation and exchange
- Challenge the way to educate, operate and measure value
- Consider the balance of physical and virtual experiences
- Explore how physical lifecycles can be optimized through virtualization and digital

For more information about how Atos can help explore virtual dimension opportunities download the report or contact us here <https://atos.net/en/lp/unlocking-virtual-dimensions-report>
