Developing Managers to Lead Confidently Through Dual Digital Transformation
Executive Summary

In 2018, Atos partnered with Harvard Business Publishing (HBP) to design and deliver an in-role leadership development program, "Leading in the Digital Age (LIDA)," for the manager population across Atos’ geographies and units.

The initiative supported Atos leaders to develop the new leadership capabilities required to lead through digital disruption impacting their direct reports and teams in their own organization as well as their clients.

Between September 2018 – April 2022, eight cohorts of 200 participants each reached approx. 1,500 leaders representing all regions and functions.

LIDA developed the targeted population into leaders who are capable of leading Atos’ strategy, inspiring and motivating high performance teams, and leading by example in the digital transformation – the Atos way.

LIDA fostered a robust learning culture for Atos leaders, enabling them to develop an authentic approach to personal leadership, lead the business, and inspire and motivate teams. It featured:

- External perspectives from HBP, new trends in leadership aligned with Atos values and culture, and the best business cases
- Top leaders from Atos are involved as co-moderators to promote Atos strategy
- Many reflection and application exercises completed in the flow of work
LIDA’s approach to design retained core curriculum while responding to such significant changes as the pandemic and a CEO change. Because of this built-in flexibility LIDA has maintained its relevancy and impact over three years.
