About us

EcoAct, an Atos company, is an international sustainability consultancy and project developer with over 260 employees in offices across Germany, France, the United Kingdom, Spain, the United States, Turkey and Kenya.

- Extensive experience in emissions reduction and sustainability projects for some of the world's leading brands
- Widest range of best-in-class solutions in carbon, energy and sustainability
- Dedicated nature-based solutions team and experienced project developers
- Expert research and development function

Introducing ~~A to~~Zero

A to Zero is our comprehensive guide to Net Zero.

Our approach has evolved from over 16 years of supporting businesses to manage their emissions and reduce their climate impact. Built on sound strategy and commercial intelligence, with an armoury of specialist technical tools and expert knowledge, this program helps ambitious business leaders tackle the climate challenges they face to deliver valuable transformational change.

Net-zero will mean transformational change and a period of transition, but we strongly believe this change is possible and positive for businesses, organizations, institutions and the planet.

Atos EcoScore®

Atos and EcoAct

Combined with Atos' digital expertise, we can offer the most comprehensive end-to-end decarbonization capabilities on the market to accelerate the corporate journey to net-zero.

Placing digital at the center of your organization's decarbonization journey, and decarbonization at the heart of digitization, will ensure that your company reaps the benefits of both transitions.

Atos is a global, vendor-agnostic IT solution provider - able to support your net-zero journey across all sectors, locations, third-party tools and systems.

Atos provides the necessary upscaling capability for EcoAct's expert tools, making them available for your entire value chain.

Case studies

Financial

NatWest
Group

Natwest partnered with EcoAct to enable a data-driven approach for reliable and robust environmental data and reporting.

The results

- Investment in new technology, supported by an embedded EcoAct team, realized a total of £24million in savings and cost avoidance during the initial 11-month period.
- A more efficient billing validation process resulted in over £1.8 million in billing related cost avoidance.
- Energy reduction targets were exceeded and the reporting burden reduced, providing the business with the foundations for their ambitious net-zero commitments.

Reporting • energy management • carbon reduction • offsetting

Telecoms

Telefónica partnered with EcoAct to launch a new climate engagement programme with their key suppliers. These suppliers were selected based on their contribution to Telefónica's Scope 3 emissions, their degree of maturity in their climate change management and their strategic importance.

The results

- Key suppliers have now defined concrete targets related to important sustainability indicators such as carbon management, energy efficiency, transport, product design, internal carbon pricing or commitment to the "100 initiatives".
- Telefónica has subsequently been able to set an SBTi compliant Scope 3 emissions reduction target.

Scope 3 • SBTs

Construction

Our work with the Eiffage Group established a trajectory for reducing the Group's greenhouse gas emissions and assessing the risks and opportunities linked to climate change in order to improve their long-term resilience.

The results

- Defined the company's trajectory for reducing direct emissions by 33% by 2030.
- Achieved alignment with the Task Force on Climate-related Financial Disclosures (TCFD) through the analysis of risks and opportunities related to climate change.
- Drafted the Group's first climate report.

Climate risk • TCFD

Manufacturing

EcoAct supported Legrand in setting its ambitious science-based target and to help establish scenarios for the Group's carbon neutral strategy.

The results

- Legrand achieved official SBTi validation for its science-based target.
- The company was provided with a detailed understanding of the mechanisms for acting on residual emissions and possible scenarios in order to inform their carbon neutral strategy.

SBTs • Carbon neutral strategy

EcoAct's awards and partnerships

Our passionate EcoActors continue to raise the bar in an effort to tackle climate change, and we collaborate with a wide range of professional partners to drive forward progress to our urgent global goals.

- Six-time winner of the Environmental Finance Voluntary Carbon Market Rankings
- CDP Global Gold Accredited Partner and accredited supplier of science-based targets
- Founding member of the International Carbon Reduction and Offset Alliance
- Founding member of the Business in the Community Net Zero Task Force in the UK
- Founding partner of the Gold Standard for the Global Goals
- ISO 140001 certified
