

Fast Facts

Minimize modernization risk and deliver sustainable transformation

Find out how Atos and VMware can help you orchestrate data center and infrastructure modernization for immediate and long-term business requirements.

Minimize modernization risk and deliver sustainable transformation

These solutions are ideal for:

Large, well-established organizations, typically, in highly regulated industries, that prioritize sustainability. e.g. Public Sector, Defense, Health Care, Financial Services, and selected Retail.

That need to:

1. **Transform and modernize** while supporting core infrastructure
2. **Efficiently optimize** operations
3. **Proactively manage** and orchestrate hybrid environment
4. **Balance** private, sovereign, and public clouds

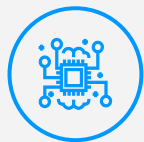

What is delivered

Reduction in costs, complexity, and management burdens commonly associated with running an expanding, increasingly complex, hybrid infrastructure.

Management of cloud-native and legacy apps and support for development and fast deployment

Maximized efficiency of core infrastructure.

Minimized environmental impact, assured long term sustainability.

How is it delivered

- **Expert sustainability assessments**, analysis, established carbon offsetting offerings, and Compliance-as-a-Service.
- **Accurate ESG insights** to drive decarbonization at scale.
- **Data protection via Atos's sustainable finance platform**, cybersecurity, and decarbonization measurement expertise.
- **AI-enabled sustainable platforms**.
- **Green growth process** to future-proof the organization.

- **Assessments of technology**, process, and skills capabilities against industry performance metrics.
- **Outcome-focused roadmaps and plans**, to position you ahead of the technological changes.
- **Solution planning and deployment best practices** – using insights gathered from thousands of customer engagements.
- **Ongoing system health checks** and recommendations, improving efficiency, resiliency, security, and sustainability.

Credentials

Leader in the Gartner® Magic Quadrant™ for Data Center Outsourcing and Hybrid Infrastructure Managed Services, Worldwide 2022

Leader in the 2022 Gartner® Magic Quadrant™ for SD-WAN

Leader in the Gartner® Magic Quadrant™ for Hyperconverged Infrastructure Software, 2021

Leader 2021 Gartner® Magic Quadrant™ for WAN Edge Infrastructure

Both Atos and VMware were named by the Dow Jones Sustainability Indexes (DJSI), World and Europe, in 2021. Both Atos and VMware were named on CDP 'A List' for **leading efforts against climate change in 2020.**

Standout USPs

Atos and VMware have been strategic partners for more than a decade, **delivering 1 million workloads and 500 global cloud projects together**, always driving the best possible outcomes for customers.

Shared values and exceptional commitment to **decarbonization and sustainability goals.**

Technology leaders in their respective fields, recognized by Gartner for **consistent performance and innovation.**

Evidence

Joint

PHILIPS

Philips has reinvented itself in the past decade, pivoting from electronics to a leading health technology company. Using Atos to transform its IT to a hybrid and multi cloud landscape, we helped them achieve a 50% cost reduction by consolidating 140 data centers into one, using VMware CloudHealth to track both cost and services usage.
