1 Carbon Reduction Plan

1.1 Scope

The scope of this year report is Atos in the Netherlands (Atos NL)

Atos NL is an organization of roughly 2600 employees delivering digital services including data management and analytics, cybersecurity and digital workplace services to a wide range of clients in NL and abroad. All activities performed in three offices have the same environmental aspects and carbon reduction targets.

Atos NL has offices in Amstelveen, Eindhoven, IJsselstein, Best, and Groningen. A datacenter in Eindhoven is owned and managed by Atos. There's also a Datacenter (rental) in Best

1.2 Targets 2021-2025 (Baseline 2019)

- 25% reduction of overall emissions
- 2% energy efficiency improvement by end of 2022
- 11% reduction in scope 1, 50% reduction in 2025
- 11% reduction in scope 2, 50% reduction in 2025
- 6% reduction in scope 3, up to about 50% reduction in 2025

Key Indicators			2021	H1 2022	FY 2022	H1 2023	FY 2023	H1 2025	FY 2024	H1 2025	FY 2025
Baseline 2019											
Carbon footprint	tCO ₂ e	216575	123512	70698	136512						
Travel footprint (tCO ₂)	tCO ₂ e	5330	173	1219	2800						
Electricity	MWh	28097	23923	10794	20108						
Renewable electricity		100%	100%	100%	100%						
Energy intensity ratio employee *	MWh	10061	9331		8785						
Emissions by employee*	tCO ₂ e	2894	0,742		0,497						

- * Yearly KPI
- The half-year figures are from the global CRS system which uses slightly different conversion factors

1.3 Carbon Footprint

GHG Scope		Base 2019	2021	H1 2022	FY 2022	H1 2023	FY 2023	H1 2025	FY 2024	H1 2025	FY 2025
Scope 1	tCO ₂	9309	1061	893	2182						
Scope 2	tCO ₂	23553	13474	6133	11226						
Scope 3	tCO ₂	183713	108979	63673	123103						

- The half-year figures are from the global CRS system which uses slightly different conversion factors
