A flexible work arrangement is a top 3 motivator for finding a new job³

As digital and distributed models are shaping the "new normal" for workers around the world, many organizations struggle to:

Provide a flexible and personalized working environment to attract and retain talent

Address security vulnerabilities and compliance gaps-along with rising IT service costs.

Bridge the gap between home and work experiences to enable productivity and collaboration.

Breakdown layers of complication and inertia created by legacy, siloed systems.

Companies need to re-envision the employee experience-evolving the way we work.

With Atos Digital Workplace, Atos and ServiceNow help organizations build solutions tailored to their needs with the right balance of technology, connectivity, and flexibility so organizations can drive frictionless work.

Sustainably unify remote and office-based models

Empower employees to work anytime, anyplace, on any device without compromising security, compliance, or governance

Design for well-being while supporting productivity

Put your people first in order to break through the productivity paradox, fostering innovation and engaging workers.

Connect people, places, and platforms at work

Bring different worlds together-including HR, IT, facilities, and global services-and cast of layers of complication and inertia.

Atos & ServiceNow employee journeys and the digital workplace experience.

Transition from the old to the new world of work with this holistic, end-to-end, people-centric managed service approach.

Build the right solutions for your needs with Atos' expertise and leadership-combing design thinking with an understanding of your organization's unique cultural challenges and an enterprise portal **powered by ServiceNow.**
