

Your GenAI at work

With Atos & Microsoft 365 Copilot

Atos

Generative AI: a gamechanger for the digital workplace

Generative AI capabilities, such as Microsoft 365 Copilot, are revolutionizing the digital workplace and creating new opportunities for added value, growth and efficiency.

AI empowers employees to focus on more value-added tasks, leading to increased performance and job satisfaction.

Atos leverages AI to develop comprehensive solutions, offer personalized services, and develop best practices for human-AI collaboration to enhance business performance and employee experience.

64%

of people have struggled with finding time and energy to get their work done.

70%

of people would delegate as much as possible to AI to lessen their workloads.

2x

likelihood of a leader to say AI will provide value by boosting productivity vs. cutting headcount.

Microsoft 365 Copilot Readiness with Atos

As an Early Adopter of Microsoft 365 Copilot, we're dedicated to helping you harness the power of AI to enhance your employee experiences and tackle your challenges head-on with the following services:

AI & M365 Copilot Advisory & Workshop

Help you build AI transformation strategies.
Identify top personas and processes that would deliver value if reimaged with AI.
