Liberating people potential
With a human-centric digital workplace
Employee experience is now a strategic priority

Today’s workplace is changing fast. New ways of working have emerged, enabled by digital technologies and driven by changing priorities.

More flexible, mobile and hybrid models of working create a better work-life balance, resulting in greater efficiency, higher performance, and better health and wellbeing.

Evidence shows that companies that prioritize work-life balance, a positive culture and personal development foster more engaged and motivated workforces. This in turn leads to higher performance and profitability. It will also help you to attract and retain top talent, reduce staff turnover and fluctuations, and strengthen your reputation as an employer of choice.

70% of business leaders agree that employee engagement is critical to achieving business results

53% of employees expect a hybrid work arrangement

23% higher profitability for organizations in the top quartile of employee engagement
“The relationship between employee and employer has changed. Progressive organizations are shifting from an employee-centered value proposition to a human-centered value proposition that treats employees as people, not workers.”

Reinvent Your EVP for a Post-pandemic Workforce, Gartner, 2022
Empower new ways of working

Wherever your workplace and whatever your business, we'll help you unleash the power of digital solutions and the potential of your people to drive your business success.

Our comprehensive approach connects three components: People, Places and Platforms.

<table>

Take your employee experience to the next level

Through our end-to-end digital workplace solutions and services, we can help you transform employee experience and empower new ways of working.

We blend solutions and services across every type of workplace and employee experience technology, making the paradigm shift away from focusing on either technology or experience to both technology and experience.

Al-enabled & decarbonized workplace | Identity & security
From employee experience to business value

We know how significant your investment is in creating the workplace you need for your business to thrive. Our focus is making sure you get maximum value from that investment.

**Human-centric approach**
We can help you to retain the best talent, prevent burn out, and improve your people’s wellbeing. Workflows are integrated across business, finance, HR and IT functions.

Whole-person experiences include help taking care of physical and mental health. From onboarding forward, employees are empowered and supported, day to day and at the moments that matter.

**Data-driven outcomes**
Advanced analytics for continuous improvements. We continuously measure technology performance, employee sentiment with our partner Nexthink, behaviors, and use of applications and tools. These metrics drive continuous adaptations and workplace improvements to meet your operational and strategic goals.

**Predictive and pre-emptive.**
Using machine learning and generative AI, our services are ever more predictive and pre-emptive, to optimize performance and resilience, and prevent problems ever impacting the user.
Generative AI capabilities, such as ChatGPT, are revolutionizing the digital workplace and creating new opportunities for added value, growth and efficiency.

AI empowers employees to focus on more value-added tasks, leading to increased performance and job satisfaction.

Atos continues to leverage AI to develop comprehensive solutions, offer personalized services, and develop best practices for human-AI collaboration to enhance business performance and employee experience.
Secure, decarbonized, sustainable

Securing your digital workplace
Advanced, risk-based security is critical in today’s hyperconnected world. We deliver end-to-end workplace security and regulatory compliance to protect people, data and assets. There’s a single point of access to data and applications, at the time of need, intuitively, securely, and instantly – from any device. This includes detection, prevention, investigation, and response against sophisticated attacks.

Delivering your ESG ambitions
As a leader in sustainability, we will align with your environmental, social and corporate governance (ESG) values and goals. We can help you reduce carbon footprint with solutions and services that are environmentally sustainable throughout product lifecycles and along the supply chain. We drive diversity and inclusion – both through our own employment policies and practices, and through our market-leading focus on accessibility of digital workplace solutions and services.

New circular economy
Atos Device-as-a-service is just part of our strategy for zero waste IT in a circular economy. It provides stronger asset management that minimizes unnecessary purchases and increases utilization rates. Users benefit from fast, personalized and convenient IT from the moment they get each device. Organizations benefit from a lower carbon footprint, as well as reductions in device downtime and increases in productivity.

Achieving a lower cost per user
We'll help you drive transformation to deliver your required cost optimization objectives. We can commit to a lower price per user, decreased over time. Hybrid working delivers cost-efficiencies. Device-as-a-service enables your move from Capex to Opex. Driven by analytics and intelligent automation, we'll help you to optimize your licensing, and reduce your device and support costs.
Shaping your new digital workplace together

With a global reach, we can design and orchestrate all stages, technologies and components of your transformation as you transition to your new digital workplace. We take an agnostic approach to technology, working with you and our partners to:

- Design a whole-person, persona-led approach to building a human-centric workplace
- Integrate technologies seamlessly, with people at the heart
- Harness and manage information, knowledge and intelligence to generate business value
- Design robust governance to manage risk and simplify your technology landscape
- Deliver communication, training and coaching on how to get the most from digital channels and tools.
Our trusted partner ecosystem

Benefits we deliver

- Higher performance and profitability
- Increased customer and employee satisfaction
- Enhanced reputation
- Overall cost reduction of 20-30% in IT operational expenditure, with a 50% reduction in calls to the IT and HR service desk.
Rely on Atos’ expertise and experience
