

How do I optimize cloud benefits?

Unlocking the potential of cloud technology is no simple task, especially when the business is under pressure to streamline operations, enhance security, and ensure compliance.

Balancing modern demands with legacy environments, expansion with sustainability, accessibility with control, and simplicity with the complex – calls for a smarter approach.

Experience a seamless and efficient cloud transformation journey tailored to your unique business needs. Atos and VMware come together to offer a smarter, simpler, and more successful cloud transformation – to advance what matters to your business.

How do Atos and VMware help deliver a smarter, more secure cloud environment?

Use Atos and VMware to create a smarter and more secure cloud environment that meets your requirements, accelerates time-to-market, simplifies transformation, and ensures compliance and data protection.

- ✓ **Tailored approach:** your business is unique, so our cloud solution is flexible, intelligent, and tailored to meet your specific needs.
- ✓ **Practical modernization:** receive assistance in implementing modernization strategies with minimal disruption and risk, overcoming barriers in lifting, shifting, and modernizing your cloud environments and applications.
- ✓ **A consistent platform** for both legacy and modern applications, reducing complexity and maximizing security without disruptive re-platforming or significant upskilling.
- ✓ **A predictable standard solution.** A consistent platform for existing applications and an innovation platform for new digital applications - that integrates seamlessly into your existing environment
- ✓ **Automation capabilities and simplified approach.** Enable deployment up to eight times faster, eliminating complex infrastructure deployment processes and accelerating time-to-market.
- ✓ **Scalable and Future-Ready:** Facilitate continuous innovations and improvements, with quicker upgrade times.
- ✓ **Risk Minimization:** Throughout migration and beyond, we meet specific business compliance needs, such as PCI and HIPAA, and protect data by enabling the analysis of anonymous data at scale.

How do Atos and VMware deliver smarter, more secure operations?

With Atos and VMware, you gain full visibility of your cloud environments, realize cost savings, and reduce risks. We help you make the informed decisions your business needs. And we work with you to improve sustainability across your cloud journey.

- **Consistent management and operations:** To maximize cloud benefits, you need consistent management and operations that offer full visibility. Atos and VMware provide a consistent infrastructure and operations on a fully automated platform, ensuring security, reliability, and governance.
- **Full visibility of cloud usage, cost, and performance,** helps you ensure your cloud operations are optimized and controlled.
- **Risk reduction and informed decisions:** Custom policies govern daily cloud operations, ensuring consistent management of infrastructure and applications across departments. Alerts for non-compliant accounts and assets help users stay ahead of security issues.
- **Improved sustainability:** Atos optimizes your environment and applications to enhance sustainability while maximizing utilization and productivity.

25%

Users typically achieve average cost savings of 25% on monthly cloud spending through better Total Cost of Ownership (TCO) visibility.

How do Atos and VMware help deliver a smarter, more secure cloud environment?

We help you create a smarter, secure experience that balances innovation, productivity, security, and governance. You can modernize your digital capabilities, empower your teams, and foster a collaborative work environment that drives success in the digital era.

Flexible and modular solution

Seamlessly integrate into existing environments, allowing you to modernize and evolve your digital capabilities with minimal disruption to existing processes.

Centralized management and automation

Build cloud-native applications for future innovation and agility, while running today's core revenue-driving applications.

Atos' consultative approach

Benefit from a leading productivity and collaboration platform that fosters an open and agile workstyle, attracting top talent. Teams can work remotely in various locations, including home, office, or elsewhere.

The Power of We in hybrid cloud modernization.

Globally recognized experience, combined resources, and commitment on both sides of We come together to deliver the best possible foundation for modern business - connected, secure, and sustainable – and ready to take on whatever the future may hold.

Worldwide winner of VMware 2023 lifecycle services award

Leader 2022 Gartner® Magic Quadrant™ for Data & Analytics Services

On SE (Societas Europaea), listed on Euronext Paris, and included on the CAC

Number 1 worldwide Managed Security Services Gartner® Market Share Report 2021

A leading provider of virtualized infrastructure and multi-cloud services for all apps, enabling digital innovation with enterprise control and carbon-efficiency for on-premises, public and hybrid cloud environments.

Committed to building a better future through the company's 2030 Agenda with a vision to build a more sustainable, equitable and secure digital future for all, including our customers.

Certified carbon-neutral company since 2018.

What should I do next?

Globally recognized experience, combined resources, and commitment on both sides of this partnership come together to advance what matters for you.

Contact us today and embark on your journey towards a smarter, more secure, and sustainable foundation for your hybrid cloud.
