

# 10 reasons to choose Atos to manage your Digital Workplace on Mac

**Atos**

Apple Managed  
Service Provider

**In today's fast-paced business landscape, a robust, secure, and efficient digital workplace is more important than ever.**

With Atos' award-winning digital workplace services, you'll be in a position to power your people and performance in compelling new ways. We enable employees to collaborate seamlessly, access critical data, and stay productive, whether in the office or remotely.

With Atos, you can be assured your entire business - and not just IT - is supported. While you focus on growth, we handle IT infrastructure, keeping costs predictable and simplifying your IT management.

Mac is powerful, simple and intuitive to use making it the device of choice for businesses. There is Mac for every job and every persona. Mac is an ideal choice for organizations of all sizes who are seeking to optimize their digital workplace, enable secure collaboration and attract top talent.

# Not convinced yet?

Here are ten reasons why Atos should be your go-to partner for a modern and efficient digital workplace on Mac.

## 1 An unmatched user experience

Atos ensures a simple and smooth device enrolment experience enabling the user to be productive from the word go. We don't stop there. Our experienced care center continues supporting the user's journey providing seamless support in German, French and English.

With a strong line-up, there is now Mac for every employee's needs - from everyday work to complex workflows. The macOS operating system provides an unmatched intuitive user interface, while the suite of productivity tools, such as Continuity, iCloud, Mail and other apps empower collaboration and streamline workflows.

## 2 Enhanced security

Atos' delivery framework brings protection of endpoint devices, identities, collaboration platform and SaaS (Software as a Service) Apps. To further enhance security, Apple's family of M3 chips ensure hardware-level encryption, a secure enclave and secure boot-up, protecting against firmware attacks.

Mac has a number of built-in security features:  
**Secure Enclave,**  
**FileVault Encryption,**  
**Secure Boot and**  
**TouchID.**

# 3 Cost-effective solution

We support you to manage and optimize costs without compromising on quality. Our innovative purchasing model enables you to reduce your initial investment and our Workplace-as-a-Service model provides predictable subscription-based pricing.

A study commissioned by Apple and delivered by Forrester Consulting includes a detailed financial analysis\* showing that, over a three-year life cycle, there is an overall cost saving of \$843\*\* for Mac compared with a PC.

*\*Full results are available in the Forrester publication [The Total Economic Impact™ of Mac in Enterprise: M1 Update](#).*

*\*\*Based on data from companies interviewed. Companies should use their own estimates within the framework provided in the Forrester study to understand their own cost savings.*

## 4 M365 Integration and Enablement

Atos helps businesses maximize the benefits of M365, ensuring an efficient and secure environment while using Apple devices.

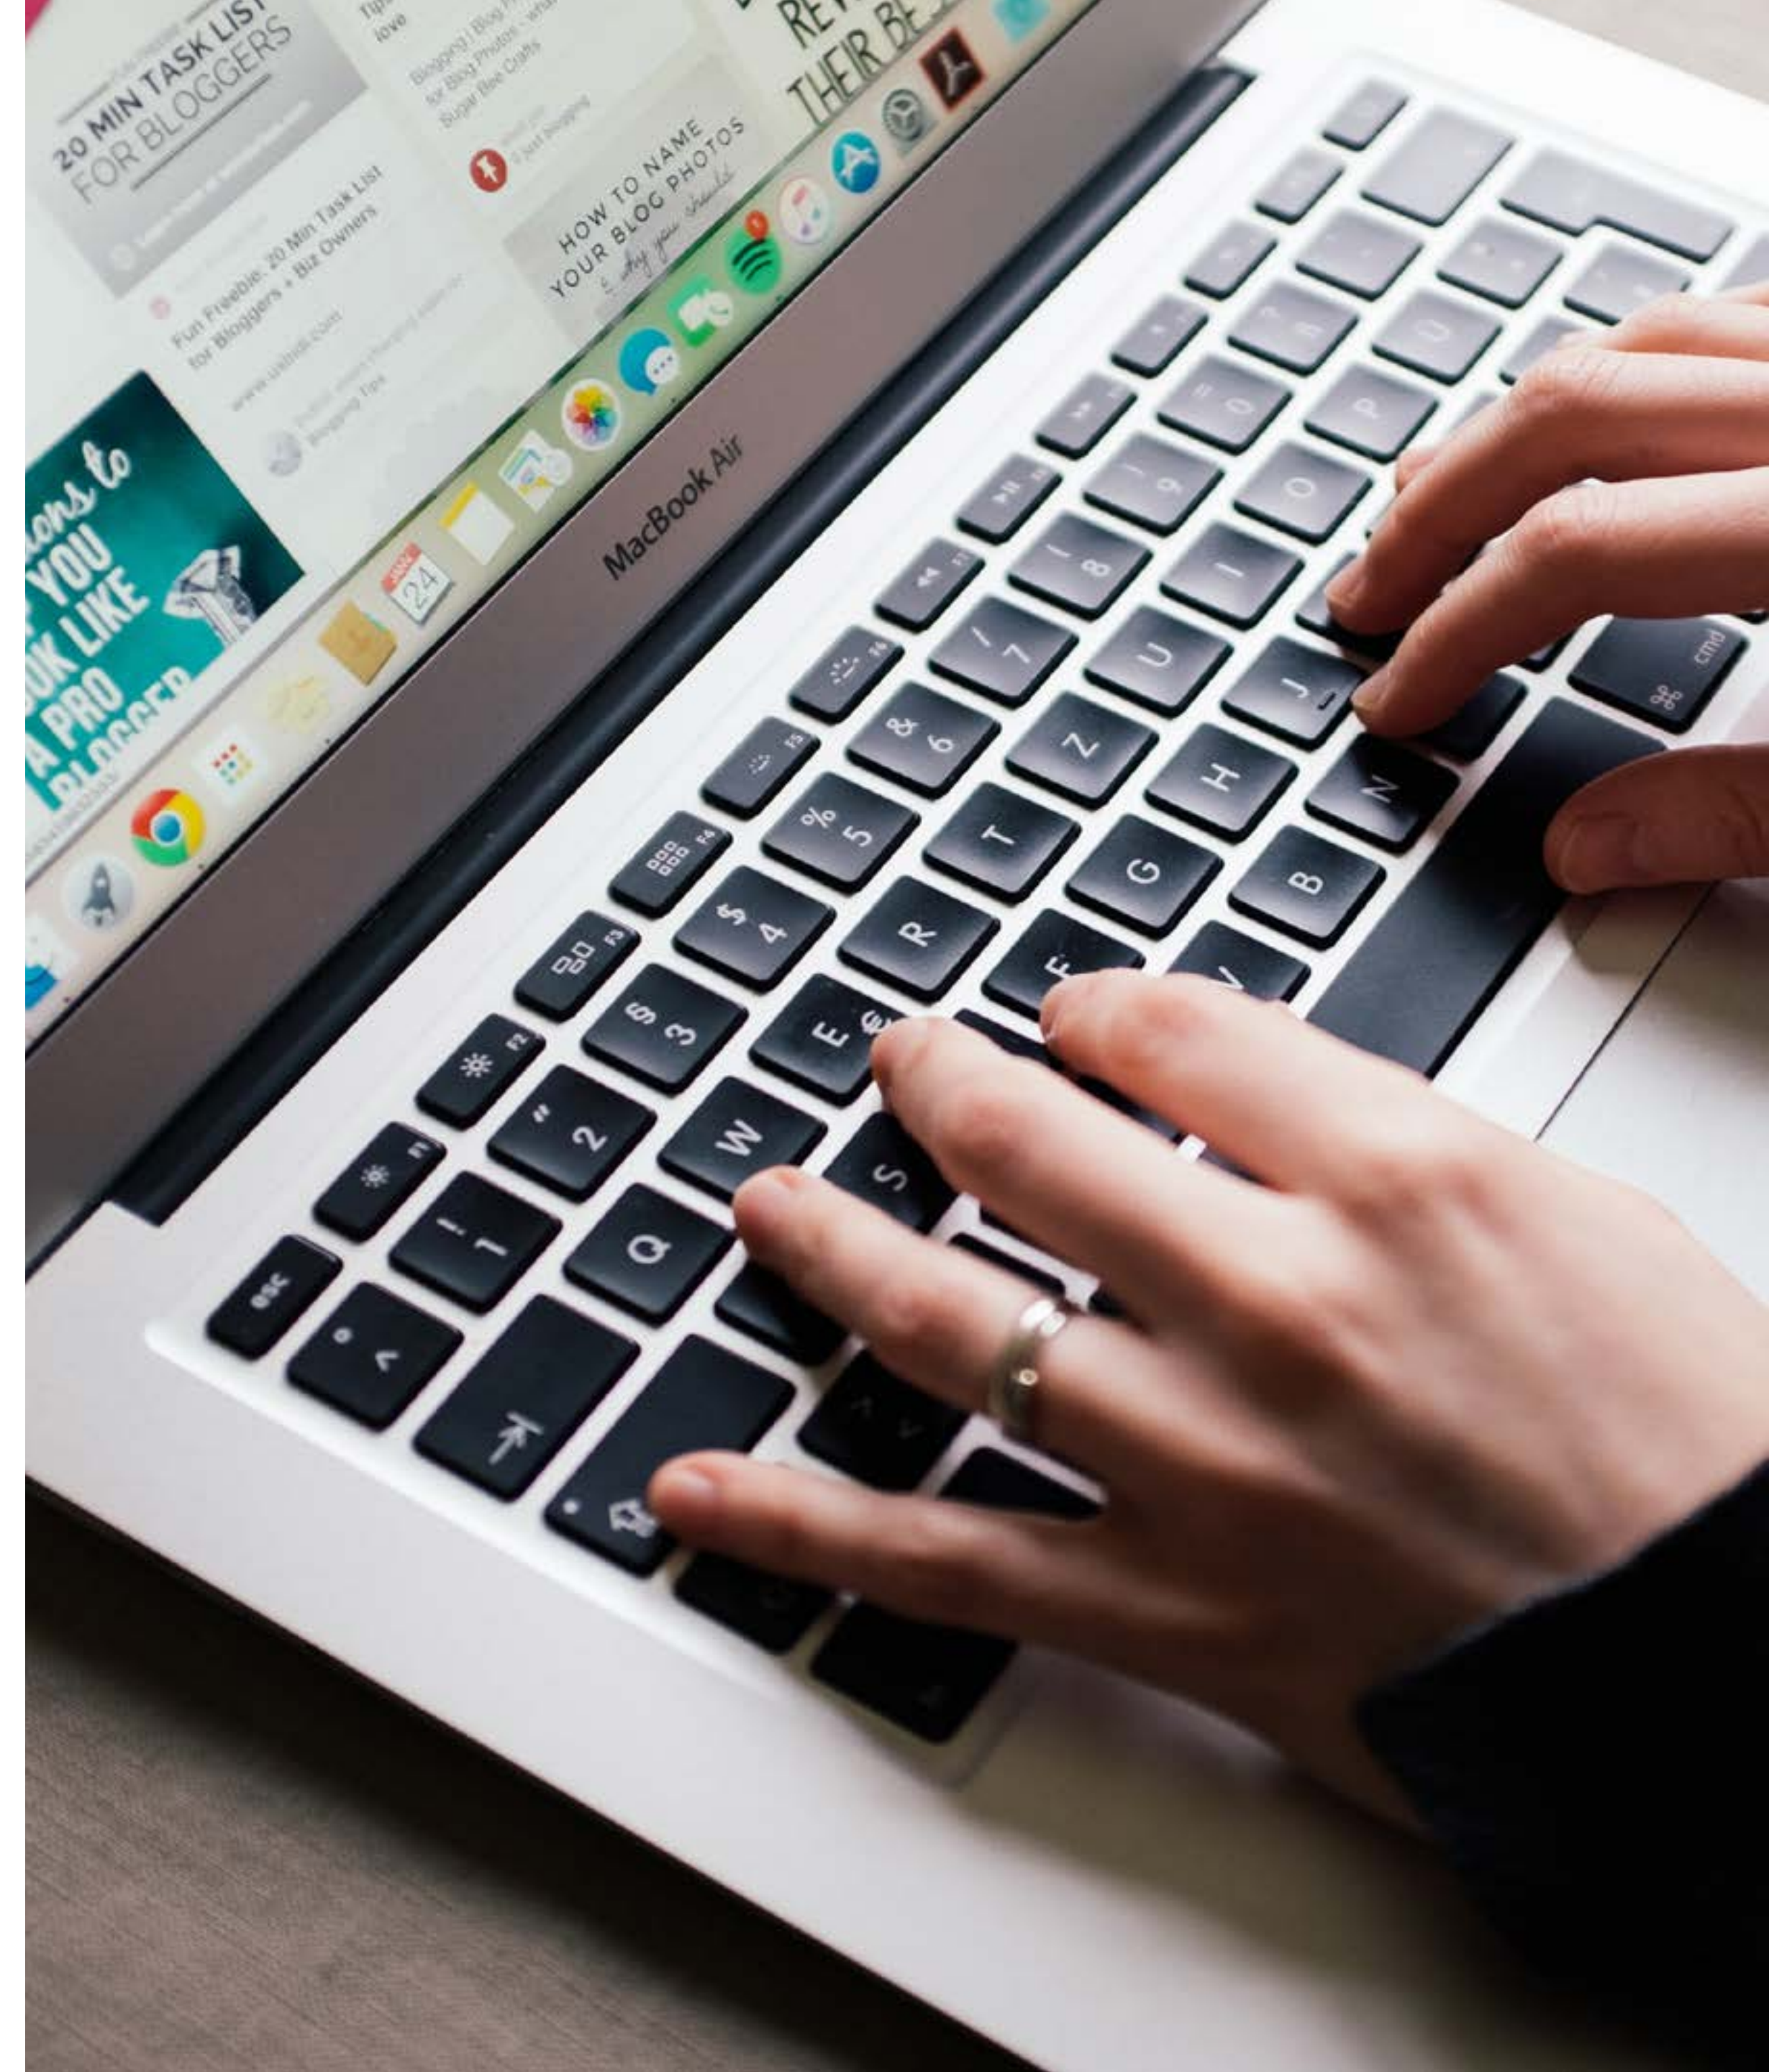

We implement and operate a managed service for all the office and security features of the M365 Suite. This includes providing issue resolution, execution of service requests and threat management, and ensuring data protection, compliance with regulations and security policies.

## 5 Simplified IT management

Outsourcing provisioning and device management to Atos simplifies your IT governance, leverages our specialized expertise, and frees up internal resources to focus on core business.

Atos fully leverages Apple Business Manager and Mobile Device Management capabilities into its managed workplace services, optimizing and centralizing the provisioning, control, and management of Apple devices within an organization.

This means that employees get their device, enter their credentials and Mac is set up automatically with necessary settings, applications, and policies.

## 6 Mobility and flexibility

Atos' digital workplace solutions enable secure access to company resources and applications from any device, ensuring seamless work experiences on the go.

MacBook Air 13" and 15" deliver up to 18 hours of battery life on a single charge\*. Along with the lightweight design, your employees can work flexibly from almost any location.

## 7 Scalability

Our scalable cloud services adapt to the growth of our customers, ensuring you only pay for what you use. This approach allows you to focus on your goals without worrying about investing in resources that become obsolete in a short time.

## 8 A powerful ecosystem

Atos creates a custom-made ecosystem bringing together software and Apple hardware and software to unleash an unparalleled experience.

Our customer-specific Company Apps Store provides a one-stop shop for all business applications your users need, combining Apple's vast selection of business-oriented applications with in-house apps.

The power of Mac with the cutting-edge family of M3 chips and macOS, mean your users can experience top-notch performance even for resource-intensive tasks.

\* Battery life varies by use and configuration.  
See [apple.com/batteries](https://apple.com/batteries) for more information.

## 9 Sustainable devices and services

Atos' ambition is to be a global leader in decarbonization services, ensuring you have access to the most sustainable service and hardware solution for your digital workplace.

Mac devices boast a low carbon footprint - the MacBook Air M2 for example is 147kg CO2e, a significantly lower than comparable devices\*.

## 10 Proactive monitoring and expert support

We identify issues and remediate them before they even begin to affect your users. With our powerful tools that also cover Mac, we identify service performance issues that might affect your organization globally and enhance your business continuity.

We also allow users to remediate issues that we identify, and give them the ability to provide in-context feedback at point of use.
