

Atos tech for good

Sustainability, accessibility, and security

Atos

The world teeters on the precipice of a daunting reality.

Unchecked carbon emissions poison the air we breathe, the oceans rise, and the earth's delicate balance is disrupted.

Digital exclusion leads to limited access to education, job opportunities, healthcare, and social inclusion.

Data vulnerabilities open the door to cyber threats, breaches, and privacy violations leaving our most sensitive information exposed to unrelenting risks.

**But there is a guiding light—a
commitment to meaningful change.**

**At Atos, we embrace the
power of technology to
rewrite this narrative and
usher in a brighter world.**

Our commitment

Our commitment goes beyond delivering cutting-edge technology solutions. We are dedicated to creating a better world.

Environmental responsibility

We prioritize sustainable practices, reducing carbon footprints and promoting a greener future.

Social inclusion

We champion digital workplace accessibility, ensuring that technology is available to all, regardless of ability or background.

Data security

We safeguard your data with state-of-the-art security measures, ensuring your peace of mind.

The challenges we help solve

01 Sustainability

Reducing Carbon Emissions: Many organizations struggle to minimize their carbon footprint due to extensive energy usage and resource consumption. Atos offers sustainable IT solutions, such as energy-efficient data centers and renewable energy sourcing, helping businesses drastically reduce their carbon emissions.

Resource Conservation: With a growing global population and limited natural resources, there is a pressing need to manage resources efficiently. Atos provides data-driven solutions that optimize resource consumption, aiding organizations in responsibly managing their resources.

02 Digital Workplace Accessibility

Inclusive Workplaces: Employees with disabilities often face barriers in their daily work lives. Atos ensures that materials and online platforms are accessible to all, making inclusive employment a reality.

Equal Employment Opportunities: People with disabilities often encounter challenges in finding suitable employment. Atos's accessible workplace solutions break down barriers, creating equal employment opportunities for individuals with disabilities.

03 Data Security

Cybersecurity Threats: The rise in cyber threats, including data breaches and ransomware attacks, poses a significant challenge. Atos delivers advanced cybersecurity measures that protect sensitive data and systems, mitigating the risk of cyberattacks.

Data Privacy Compliance: Organizations struggle to navigate the complex landscape of data privacy regulations. Atos provides comprehensive data security solutions that help companies comply with evolving privacy laws and protect their customers' data.

Sustainable business, sustainable future

Our sustainability solutions

We offer a wide range of solutions to make your business more sustainable. Our approach is comprehensive, addressing various aspects of sustainability to reach a net-zero future.

Key solutions

CloudCatalyst

A major step to Net Zero through the ability to shrink to the smallest footprint and to site this in more efficient and less powerhungry datacentres.

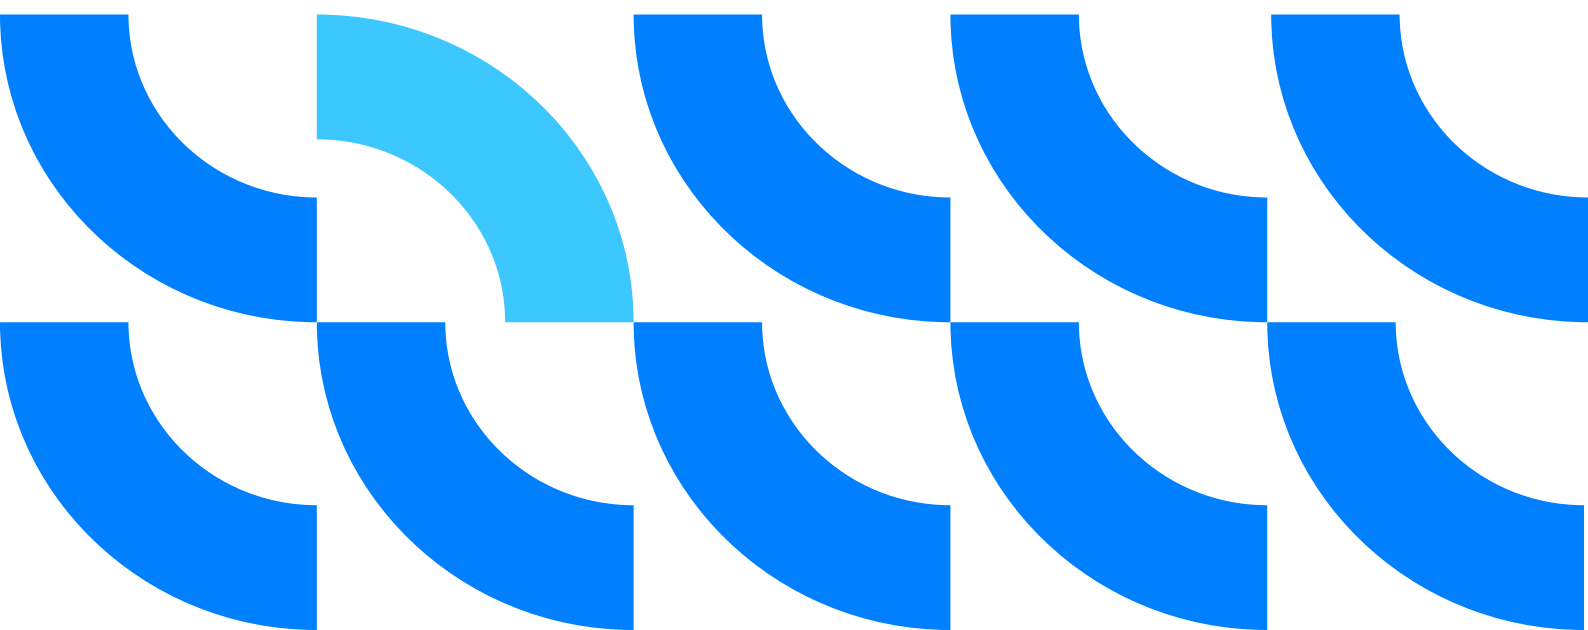

Cloud Infrastructure

Usage assessment related to carbon emissions. Recommendations for critical milestones to achieve decarbonized operations.

Device-as-a-service

Atos Device-as-a-service is just part of our strategy for zero waste IT in a circular economy. It provides stronger asset management that minimizes unnecessary purchases and increases utilization rates. Organizations benefit from a lower carbon footprint, as well as reductions in device downtime and increases in productivity.

Sustainability in action

The impact of sustainability isn't just for your business, but it benefits the entire planet. We're working toward net-zero for a brighter future for the earth and those who live here. Digital decarbonization improves efficiency, reduces costs, and drives innovation for success.

\$10,600

Empowering remote and hybrid work environments can save companies on average \$10,600/year per employee while cutting carbon emissions due to reduced commute time

1700

Scottish Waters reduced energy usage by 6-8% across 1700 pumping stations

CSR

Analyzing desktop usage helps companies accurately report energy consumption for CSR reporting

80%

Migration of workloads to the AWS Cloud can result in up to 80% carbon reduction

Sustainability

Reduce energy costs by increasing the efficiency of your IT
Improve company sustainability performance by engaging staff

Workplace accessibility for all

Our accessibility solutions

We offer a wide range of solutions to make your digital workplace accessible to every employee. Our approach is comprehensive, addressing various aspects of accessibility to create an inclusive and empowering environment.

Key solutions

Accessible IT services

Accessible services and products empower all your employees and customers to fully interact and contribute, increasing your productivity, customer base, and opening new markets.

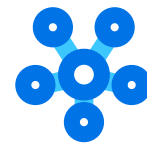

Accessibility Consulting

Expert advisory services supporting technical & administrative functions integrate Accessibility policies, strategies, and inclusive technologies across the organization. Supporting innovation and the creation of inclusive experiences.

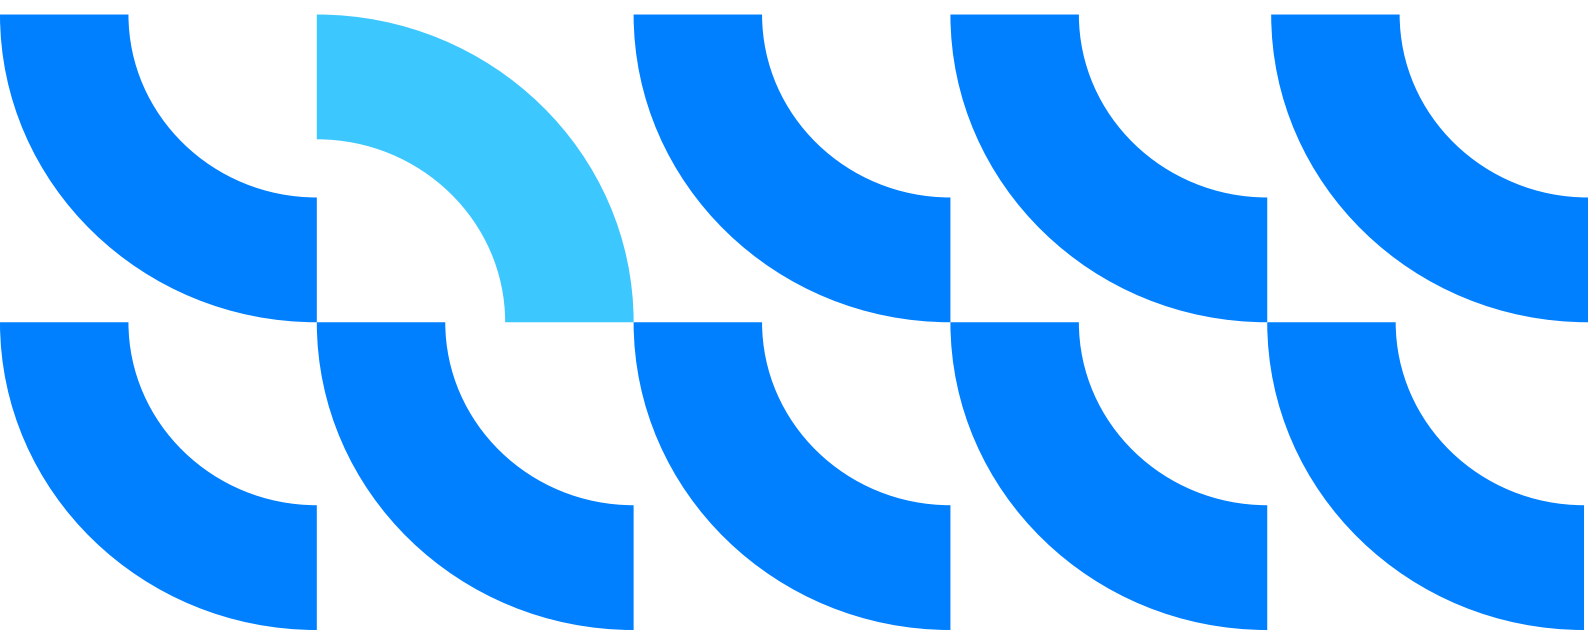

QA & compliance

Auditing against international standards to ensure compliance and providing expert remediation support. Monitoring to provide actionable insights & reporting on Accessibility & Assistive Tech supporting continuous improvement through a DevSecOps* approach.

Accessibility as a Service

Providing end-to-end Accessibility services including Deployment, Governance, Service Desk, Product and Service catalogues. Working in partnership to provide expert support for Employees, Management, Procurement and HR.

Bridging the Digital Divide

The impact of digital workplace accessibility can be transformational. At Atos, we've partnered with organizations to create accessible and inclusive environments, leading to remarkable success stories. Explore a few of these stories that highlight the tangible benefits of accessibility.

01

Companies with strong accessibility and inclusion see: 28% higher revenue, 2x higher net income, 30% greater economic profit margin, outperform competitors without similar commitment.

02

Accessibility leads to higher attrition rates, saving one company \$73k and 21 weeks of training time

03

Accessibility increases productivity, saving that same company \$8k per day per employee once accommodations were made

04

Neurodiverse teams are 30% more productive

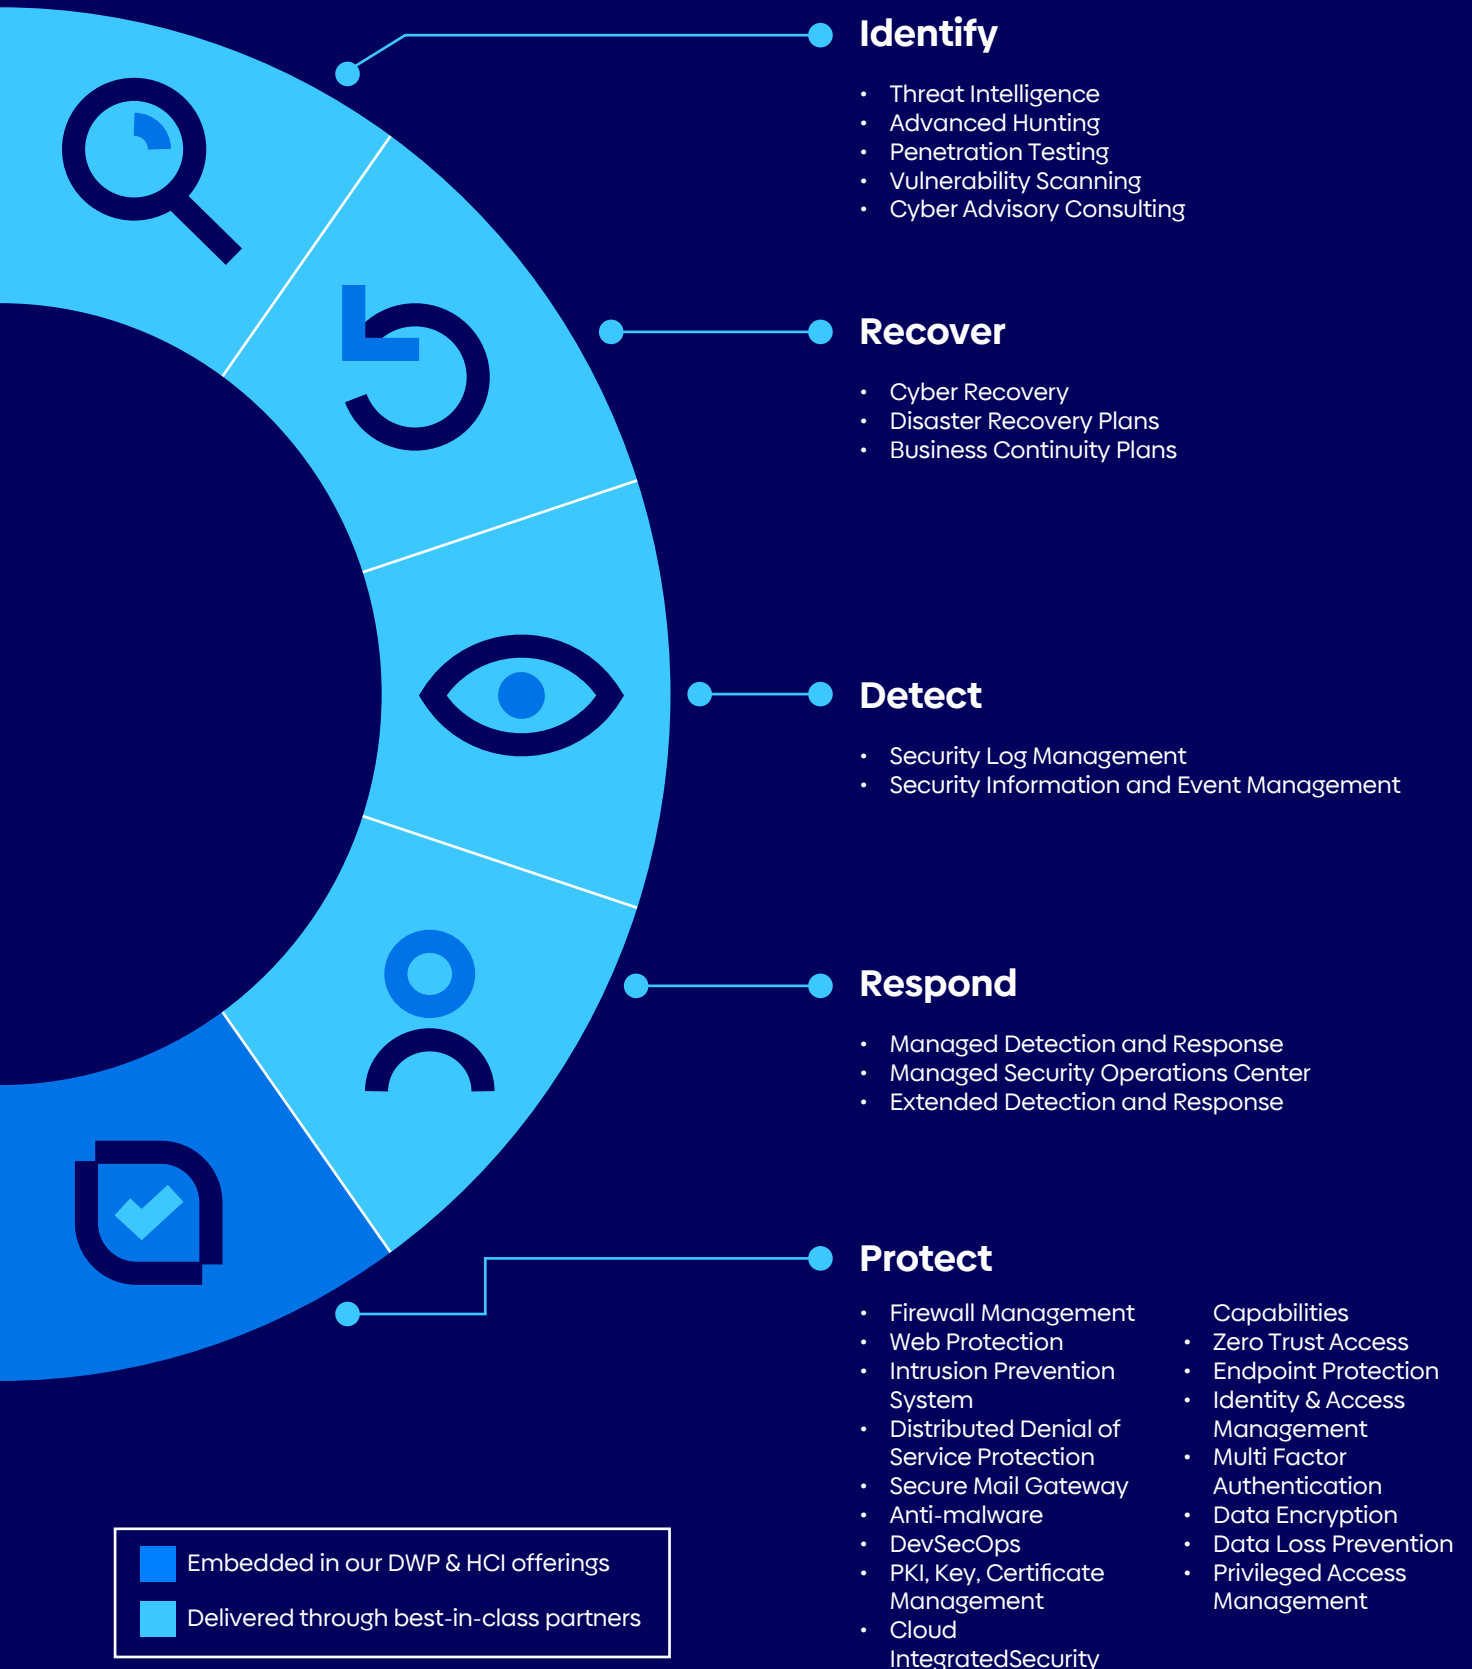

Securing your data throughout

Embedded security in core offerings

A strong ecosystem of leading security partners

Digital fortification

In today's digital age, fortifying your digital world is paramount. At Atos, we take data security seriously.

Dell Cyber Recovery

A set of solutions, powered by Dell Technologies, that helps enterprises identify their most critical data assets and automate the protection of recovery copies within a cyber vault. Intelligent software analyzes all incoming datasets and detects any signal of potential threats from the production and backup environments, so you can get back to business quicker.

IBM Z

IBM's mainframe solution for mission-critical applications, delivering next-level data privacy, security, and resiliency. Safeguard and flourish with unmatched security and resilience features powered by quantum-safe technologies. Get the stable, secure environment your organization requires to improve performance for mission-critical workloads and meet future challenges.

Bringing AI to Your Data

Harness the power of AI and Edge computing without compromising data integrity. We provide a trusted platform for organizations to innovate confidently, safeguarding their most sensitive information with Sovereign AI.

The Atos advantage

Expertise

With decades of experience, our experts are leaders in the field of digital accessibility.

- 11,000+ dedicated to engagement
- Leader in DWP for 7 straight years

Tailored solutions

Our solutions are customized to meet your unique needs and challenges.

- 100+ partners
- 24x7 coverage

Proven success

Our track record of success stories speaks for itself.

- 100% transition rate
- 10+ year avg customer relationship

Innovation

We're at the forefront of accessibility technology and trends, shaping the future.

- 14 regional Inno'Labs
- 100+ PhD's and innovation experts

Global reach

With a global presence, we're ready to support you wherever you operate.

- 107,000 employees
- 69 countries

Join the movement

Embarking on your journey with Atos is a seamless process. We're here to guide you every step of the way, ensuring your business thrives.

Step 01

Consultation and assessment

We begin with a thorough consultation and assessment to understand your unique needs.

Step 02

Tailored solutions

Based on the assessment, we design tailored accessibility solutions, addressing your specific challenges.

Step 03

Implementation

Our experts implement the chosen solutions, ensuring they seamlessly integrate into your business.

Step 04

Training and awareness

We offer comprehensive training programs to educate your workforce on best practices.

Step 05

Ongoing support

Our support team is available to provide ongoing assistance, ensuring efforts remain successful.

About Atos

Atos is a global leader in digital transformation with 105,000 employees and annual revenue of c. € 11 billion. European number one in cybersecurity, cloud and high-performance computing, the Group provides tailored end-to-end solutions for all industries in 69 countries. A pioneer in decarbonization services and products, Atos is committed to a secure and decarbonized digital for its clients. Atos is a SE (Societas Europaea) and listed on Euronext Paris.
