

Power your ambitions

with Atos Professional Services

Your trusted end-to-end technology partner

Advancing what matters

Atos

Are you looking for fast, flexible access to world-class technology capabilities?

Technology leaders are under pressure to deploy innovative solutions and services critical to their business's success.

Yet delivering on these ambitions may require capacity, experience or expertise that aren't available to you internally.

- **Specialist technology** skills are in high demand
- **Budgets, timescales, and risks** must be tightly managed
- **Changes and spikes in requirements** can be complex to navigate

Atos Professional Services is here to help.

Bringing decades of experience, we design, deliver, and support flexible, scalable, and secure technology solutions and services.

We accelerate programmes of work across the technology spectrum – from rapidly proving a concept to achieving critical business outcomes at scale.

We're ready to work in true partnership to equip you and your business for success today and tomorrow.

We will deliver for you

We understand the challenges that business and technology leaders face. We can provide the technology capability and capacity you're looking for – exactly when and where you need it.

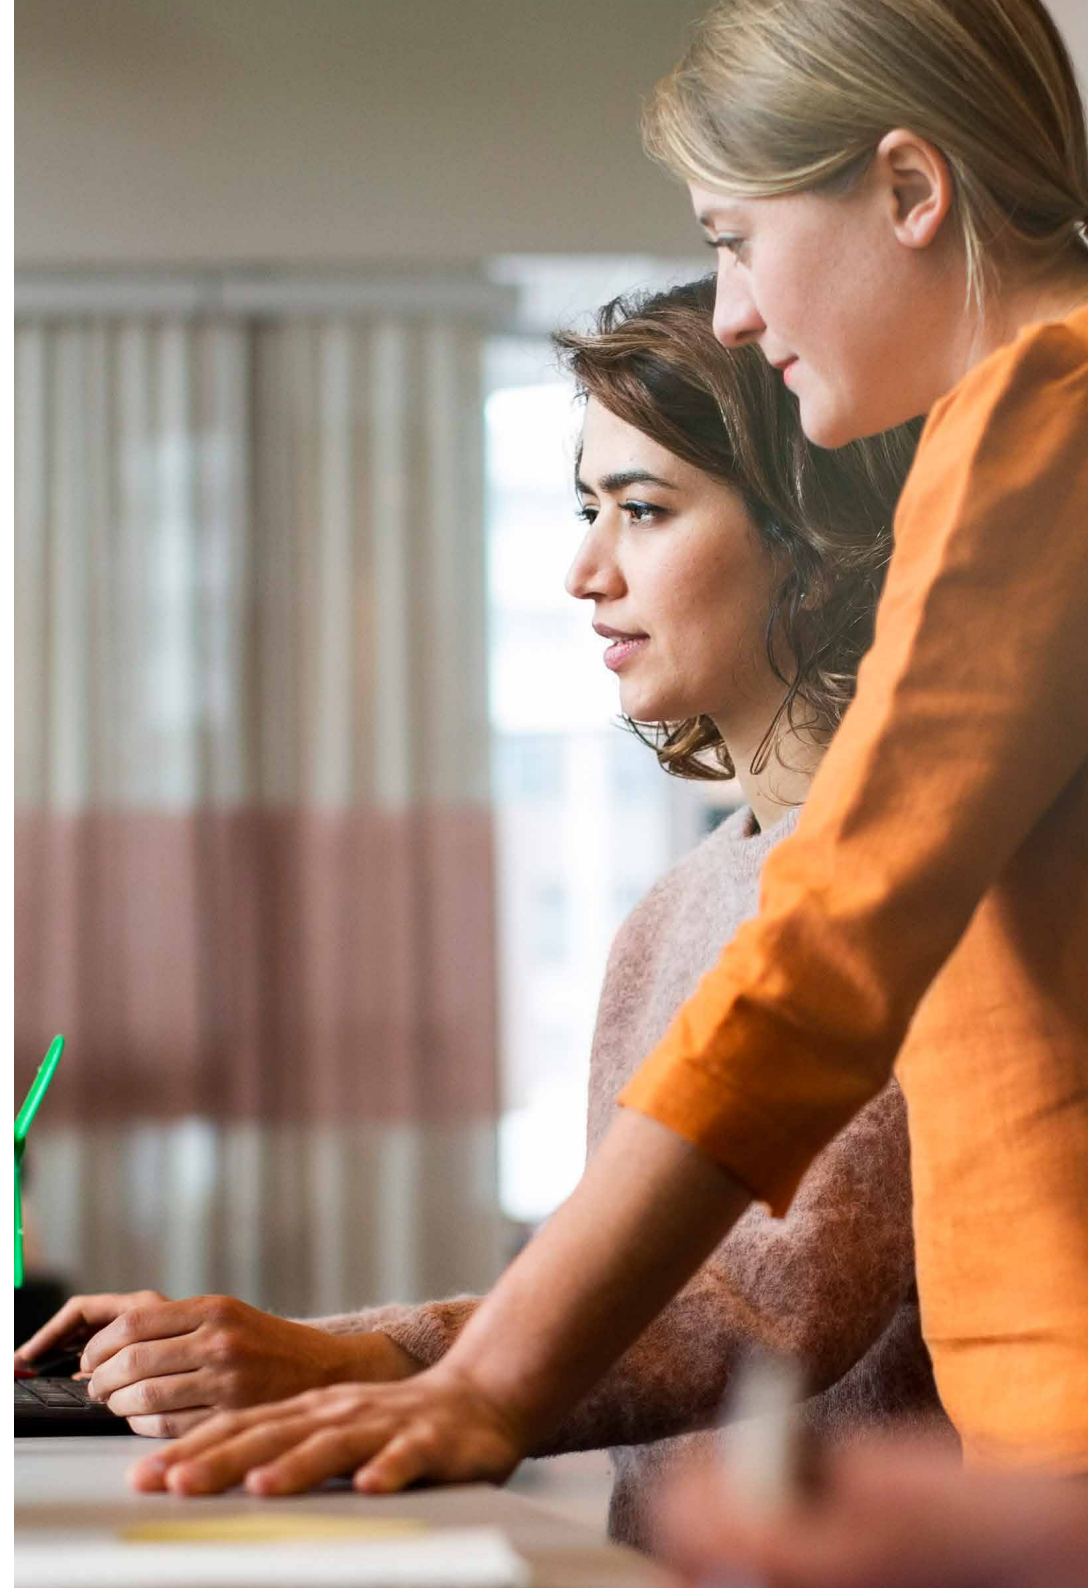

To achieve your ambitions with us, you can:

- Access +6,000 highly skilled technologists
- Reduce your procurement and go-to-market costs
- Leverage capabilities wherever you need: **onshore, nearshore** and **offshore**

Commercial and engagement agreements are based on each customer's specific needs.

Depending on your requirements, programmes of work can leverage a range of delivery models, including:

- **Output-based resourcing solutions** with the deployment of technology specialists working in collaboration to deliver the outcomes you need
- **Project staff augmentation** from embedding a single technologist to fielding a whole squad
- **Fixed price or time & materials (T&M)** with commercial flexibility to meet your financial targets
- **A Master Service Agreement** calling off an agreed rate card as and when you require
- **Remote, on-site, hybrid working** to align with your organisation's culture and practices
- **Onshore, nearshore, offshore** across the UK and through Global Delivery Centres in Poland and India

Why our customers choose us

Speed and simplicity with fast, easy access to the capabilities and programmes of work you need – but without a complex and lengthy bidding process.

Extensive resourcing capability with over 6,000 highly trained and certified professionals and skills spanning the evolving technology landscape across all industries.

Mobilisation at pace we can deploy a carefully selected lean multi-disciplinary team within two weeks that is aligned and scoped to meet your needs.

Agility and flexibility, so if your needs change along a programme lifecycle, we'll adapt and ramp up or down at short notice.

Knowledge transfer in close collaboration, with ISO44001 certified processes to transfer skills, documentation, and experience, giving you sustainable and self-sufficient internal capability.

Cost-efficiency and control with competitive, transparent pricing to ensure you only pay for what you need – so you can deliver faster on budget, with control of your costs.

Worldwide capability so you can seamlessly draw on the Atos footprint across 69 countries, plus our strategic partnerships and alliances with the world's hyperscalers and IT leaders.

Innovation our investment in R&D includes the Atos Research Community, pushing the boundaries of research and innovation to advance what matters for our customers and society.

Customer satisfaction

Our business is built on long-term customer relationships, with NPS scores of

9/10

Trusted technology capabilities end-to-end

Atos Professional Services leverages a long track record of delivering IT services, technology innovation and digital transformation.

Along the programme lifecycle.

We can support you throughout an entire programme lifecycle – from ideation to discovery, through testing and delivery, onto iteration, and to service and maintenance.

Across all sectors

We offer in-depth experience in every industry, including:

- Public sector & defence
- Healthcare & life sciences
- Financial services & insurance
- Energy & utilities
- Manufacturing
- Transport & logistics
- Retail & hospitality
- Telecoms, media & technology

In all technology domains

We bring strategic thinking and specialist expertise across the technology spectrum, including:

- Data, analytics, artificial intelligence, machine learning
- Cloud adoption, migration and operations
- Digital technology, application and infrastructure engineering
- Cybersecurity and compliance
- Technology, architecture and governance
- Delivery, service management and testing

Your committed partner, focused on your success

Access the scale of a global technology consultancy and services provider, with the agility of a local team dedicated to you and your needs.

Wherever you are on your roadmap, we can help. You might want to:

- Pivot to an urgent business need
- Kickstart a project
- Accelerate the design and build of a product or a platform
- Optimise the management of your IT
- Upskill your internal capability

Our first step will be to work closely with you to scope and tailor exactly what you need, ensuring the best skills, experience, location, tooling, and methodologies to meet your objectives on delivery, costs, and timescales.

We will mobilise and onboard the team, engaging with you closely throughout the programme to deliver your ambitions. What's more, we can help you anticipate your demands, enabling you to avoid unnecessary delays or spending.

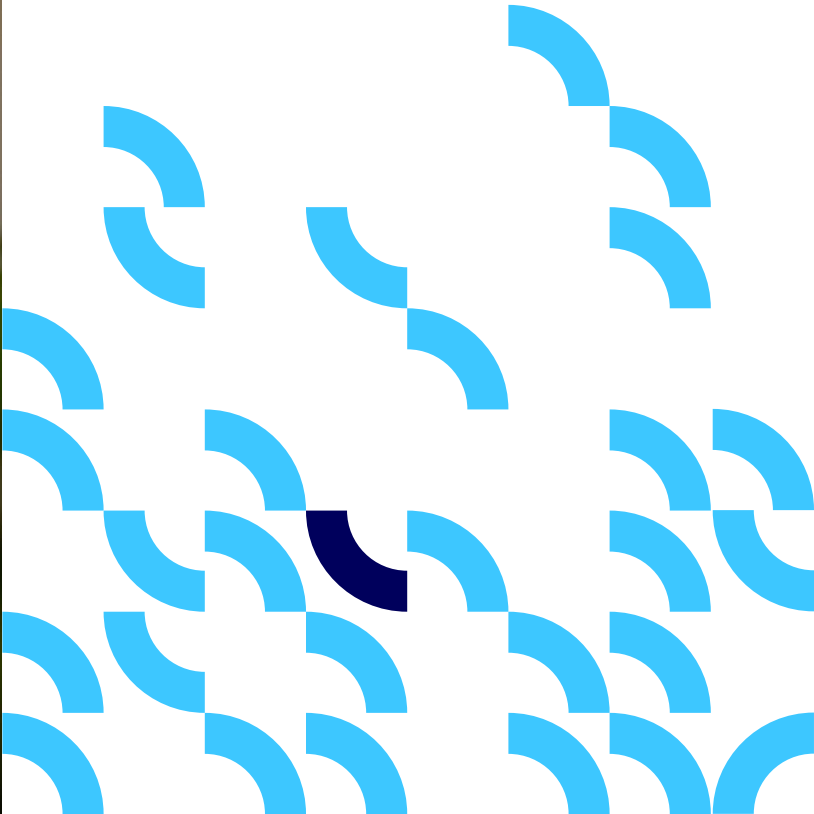

What next?

Let's take the next step

If you'd like to discuss your technology challenges or specific requirements, we're here to help.
