

# The Atos and Veeam partnership: Credentials and expertise

**Why C-Suite executives trust the partnership between Atos and Veeam**

**You may ask yourself two simple questions:**

- How long can my company survive if it lost its data?
- Is my company NIS2 and/or DORA compliant?

If so, we have the answer.

**Atos**

**veeam**

# The Atos & Veeam Partnership

## Achieve unmatched data resilience

**Atos and Veeam deliver enhanced data resilience and cybersecurity for Microsoft 365 and multi-cloud environments. Leveraging Veeam's industry-leading backup, recovery and advanced security capabilities combined with Atos's managed services expertise, we ensure optimal data protection, compliance and disaster recovery. Together, we offer end-to-end resilience across virtual, physical, SaaS and Kubernetes environments to reduce risks and enhance uptime.**

This partnership combines Atos' robust infrastructure and IT capabilities with Veeam's state-of-the-art data resilience technologies. Atos and Veeam deliver a set of comprehensive products and services that address complex data management challenges, such as disaster recovery, cloud data migration and ransomware protection.

Veeam's ability to provide flexible, scalable, high-performance solutions complements Atos' mission to support businesses on their journey to digital excellence. Together, we provide enterprises with access to end-to-end solutions that prioritize operational resilience and compliance with evolving regulatory requirements.

One of the core strengths of the Atos-Veeam partnership lies in our ability to enable seamless cloud integration. By leveraging Veeam's capabilities, Atos helps organizations accelerate the adoption of hybrid and multi-cloud environments while ensuring that data remains protected and recoverable at all times. This collaboration also emphasizes sustainability by optimizing resource utilization, aligning with the broader goals of digital transformation initiatives.

# About Veeam

Veeam is a global leader in modern data resilience and management solutions, offering cutting-edge technologies designed to ensure data availability, security and continuity. Renowned for its expertise in backup and recovery, Veeam is pivotal in empowering organizations to achieve seamless business operations by safeguarding their critical data.

## Veeam at a glance:

- Headquartered in Seattle, Washington
- EMEA HQ in Paris
- **\$1.5** billion in annual revenue
- Market valuation of **\$15** billion
- **5,500** + employees
- **150** + countries served
- **550,000** clients worldwide
- Major shareholder: Insight Partners

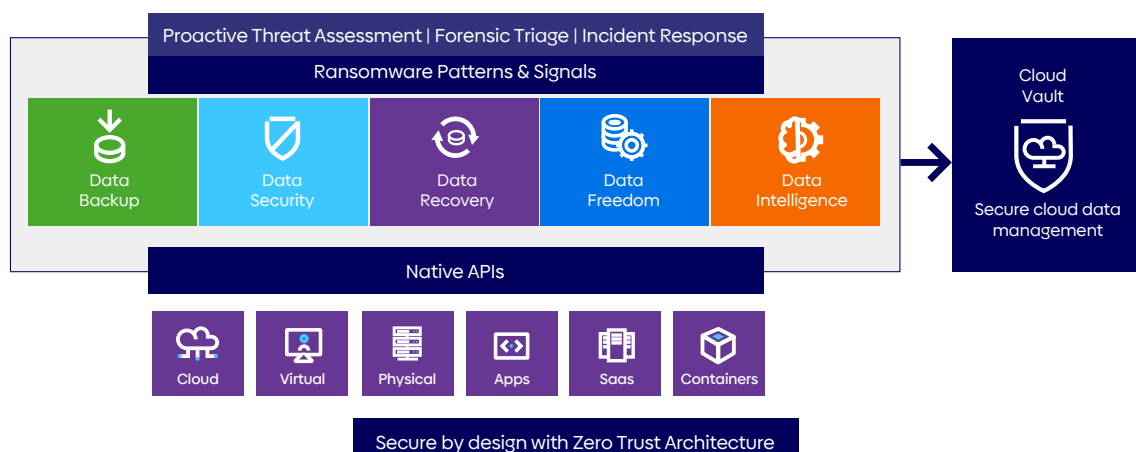

## #1 in data resilience

Veeam has been ranked as a leader in data resilience by numerous industry analysts for all aspects of data management, including on-premises, edge, cloud and everything in between – from the endpoint up to enterprise data.

<b>#1</b> Global market share in Data Replication & Protection 	<b>#1</b> Secure Recovery, 5x faster 	<b>#1</b> Data Portability	<b>#1</b> Microsoft 365 
	<b>#1</b> Kubernetes 	<b>#1</b> Multi-cloud/ Hybrid 	<b>#1</b> Magic Quadrant, ability to execute <b>Gartner</b>

## End-to-end data protection

Veeam offers a complete stack of integrated data management tools, including containerization, data security, Microsoft 365 security and NIS2/DORA compliance tools no matter where the data resides – at the endpoint, in the cloud, or anywhere in between

# Joint solutions from Atos and Veeam

**We combine forces to deliver world-class solutions focused on cyber resilience, compliance and seamless Microsoft 365 data protection.**

Our partnership harnesses Veeam's advanced data resilience technology alongside Atos's expertise in cybersecurity and managed services, ensuring robust protection against data loss and cyberthreats. Together, we deliver comprehensive solutions to secure, manage and restore critical business data in the event of any outage.

## **1. Backup for M365**

A robust backup solution for Microsoft 365, addressing the critical need for data protection in cloud environments. It provides comprehensive data protection, ensuring business continuity and compliance. Features include automated backups, rapid recovery and secure data storage, helping safeguard your Microsoft 365 data against accidental deletion, cyberthreats, and compliance risks.

## **2. Veeam Data Platform**

A comprehensive solution designed to enhance data resilience and protection for enterprises. This platform integrates advanced features such as identity and access management backup, proactive threat analysis and ransomware recovery. It ensures that organizations can safeguard their critical data against cyberthreats, outages and natural disasters.

## **3. Cloud Backup**

Designed to enhance data protection and management across diverse environments, our cloud backup solution offers robust data security, seamless data mobility and efficient disaster recovery. It supports a wide range of workloads, including cloud, virtual, physical, SaaS and Kubernetes environments, ensuring comprehensive data protection and availability. It accelerates cloud adoption, safeguards against cyberthreats and promotes business resilience while maintaining sustainability and compliance.

## **4. Backup for Salesforce**

A specialized solution for backing up Salesforce data, ensuring comprehensive protection and rapid recovery. It leverages Veeam's advanced backup technology to safeguard Salesforce data, files and metadata against loss due to human error, integration issues or other disruptions. With features like high-frequency backups, transparent recovery processes and data archiving, the solution helps organizations maintain data integrity, comply with regulatory requirements and minimize storage costs within Salesforce.

**We have successfully implemented and delivered projects for global organizations as well as medium to large companies in nearly every industry, including:**

- Automotive supply chain and distribution
- Banking and financial services
- Consumer goods and food production
- Healthcare and medical services
- Energy, oil, gas, mining and utilities
- Government and public administration
- Industrial manufacturing, technology and engineering
- Logistics and supply chain management
- Pharmaceutical and biotechnology
- Retail and consumer goods
- Telecommunications
- Transportation and infrastructure management

# Start your journey with us

Atos has a comprehensive suite of technology consulting services to help you determine the extent of your data protection environment.

Upon completion of the assessment, we can also help you install, integrate and manage your solution.

## **Our advisory services include:**

- Endpoint protection assessment
- Data center modernization assessment
- Virtual Infrastructure Proficiency (VIP) assessment

# Take the next step
