

Atos launches a reverse stock split

Paris, France - March 7, 2025. – Atos SE (the “**Company**”) announces the implementation of a reverse stock split of the shares comprising its share capital, through the exchange of 10,000 old shares of €0.0001 par value for 1 new share of €1.00 par value.

Given the number of Atos shares issued during the capital increases carried out as part of the Company’s accelerated safeguard plan and the low share value, the reverse stock split aims to restore a normal number of shares, reduce share price volatility and support a new stock market dynamic.

The reverse stock split is a purely technical exchange transaction with no direct impact on the total value of the Company’s shares held by each shareholder.

For example, for a shareholder holding 30,000 shares before the operation:

	Before the reverse stock split (until April 23, 2025)	After the reverse stock split (from April 24, 2025)
Number of shares	30,000	3
Indicative value of the share ⁽¹⁾	€0.0049	€49
Portfolio value ⁽²⁾	€147	€147

⁽¹⁾ Value at the close of trading on March 6, 2025.

⁽²⁾ Excluding price fluctuations.

Frequently Asked Questions (FAQ) relating to the reverse stock split are available on the Company’s website in the “Investors” section.

Main terms and conditions of the reverse stock split

Following delegation of powers by the shareholders’ combined General Meeting of January 31, 2025 (29th resolution), the Board of Directors, at its meeting on March 6, 2025, decided on the terms and conditions of the reverse stock split, which are detailed below.

- **Start date of the reverse stock split operations:** March 25, 2025.
- **Effective date of the reverse stock split:** April 24, 2025.
- **Basis of the reverse stock split:** exchange of 10,000 ordinary shares with a par value of 0.0001 euro each for 1 new share with a par value of 1 euro and current dividend rights.
