

Atos Named as Leader in the ISG Provider Lens™ 2024 for Industry Transformation Services in Europe

Bezons, France – July 29, 2025 –Atos, a global AI-powered technology partner shaping secure, end-to-end digital journeys, has been named as **Leader** in **Industry transformation services** in Europe by Information Services Group (ISG), the leading global research and advisory firm.

Industry Transformation Services

The report assesses providers specializing in operational and business consulting services by leveraging technology that helps manufacturing companies enhance process efficiency and productivity, accelerate innovation and achieve sustainability goals.

The report highlights Atos as a leader in digital transformation services across Europe, especially in the manufacturing industry. It provides advanced AI solutions, smart factory technologies and digital ecosystems to optimize production.

Harish B, Manager and Principal Analyst, ISG mentions that *"Atos is a prominent player in the manufacturing industry transformation services space in Europe, leveraging its expertise in digital technologies to enhance manufacturing processes."*

The assessment acclaimed Atos' strengths in **Collaboration with major industry players**. It collaborates with leading automotive manufacturers and other significant players in the manufacturing sector. For example, the company is involved in projects such as the European e-BEAT initiative, which aims to optimize electric vehicle manufacturing through intelligent decision-making tools.

The report accolades Atos' role to **Support for gigafactories**. It plays a vital role in supporting the ramp-up of gigafactories for electric vehicle batteries across Europe. It manages IT infrastructure for Automotive cells company's facilities in France, Germany and Italy, ensuring robust operational capabilities as the demand for electric vehicles grows.

ISG also acknowledges Atos' **R&D initiatives**. With a strong R&D focus, it is involved in numerous projects aimed at advancing manufacturing technologies. Its dedicated research teams work on innovations that enhance data intelligence and operational performance within the manufacturing sector. It tailors its services to various segments within the manufacturing industry, including automotive, consumer packaged goods, aerospace and chemicals.

Atos Group is a global leader in digital transformation with c. 72,000 employees and annual revenue of c. € 10 billion, operating in 68 countries under two brands — Atos for services and Eviden for products. European number one in cybersecurity, cloud and high-performance computing, Atos Group is committed to a secure and decarbonized future and provides tailored AI-powered, end-to-end solutions for all industries. Atos is a SE (Societas Europaea) and listed on Euronext Paris.

The [purpose of Atos](#) is to help design the future of the information space. Its expertise and services support the development of knowledge, education and research in a multicultural approach and contribute to the development of scientific and technological excellence. Across the world, the Group enables its customers and employees, and members of societies at large to live, work and develop sustainably, in a safe and secure information space.
