

Atos Named as Leader in the ISG Provider Lens™ 2024 for Smart/Digital Factory Solutions in Europe

Bezons, France – July 29, 2025 – Atos, a global AI-powered technology partner shaping secure, end-to-end digital journeys, has been named as **Leader** in Smart/Digital factory solutions in Europe by Information Services Group (ISG), the leading global research and advisory firm.

Smart/Digital Factory Solutions

The report assesses providers specializing in services that aid manufacturing companies in streamlining factory or shop-floor operations with offerings such as manufacturing execution systems (MES), process and quality management solutions.

The report highlights Atos' factory of the future initiative which aims to double production capacity while reducing costs and carbon footprints and enabling transition to smart factories. Its approach leverages advanced technologies such as AI, high-performance computing and digital twins to optimize production.

Harish B, Manager and Principal Analyst, ISG mentions "*Atos provides end-to-end smart manufacturing solutions that cover the entire production lifecycle, from R&D to production and supply chain optimization.*"

The assessment acclaimed Atos strengths in, **Smart manufacturing solutions** which offers a comprehensive suite of end-to-end smart manufacturing solutions. It spans from R&D engineering to production and connected vehicle technologies. Atos works with major automotive manufacturers, providing solutions that enhance PLM and operational efficiency. Its M4MFG consulting service guides clients through their digital transformation journey, effectively modernizing their operations.

ISG also highlighted strengths in **Advanced technological integration**, integrating advanced technologies into manufacturing processes. It leverages AI, ML and digital twins to enhance productivity and innovation within manufacturing environments. Such technology integration allows for real-time data insights and production line optimization, helping manufacturers efficiently adapt to changing market demands.

ISG acknowledged Atos' **Consulting-led engagement** which uses a transformation consulting approach to steer business and digital transformation initiatives from the shop floor to the top floor. The approach also drives its Industry 4.0 capabilities, including digital product twin, performance twin, connected product/vehicle, CRM service and remote expert support.
