

Press Release

## **Atos named Leader in ISG Provider Lens® 2025 Global Report for Insurance Digital Engineering Services**

*Recognition highlights Atos' ability to combine deep insurance expertise, AI-powered engineering and enterprise data platforms to help insurers modernize core systems and enable intelligent, data-driven operations.*

**Paris, France – March 19, 2026** – [Atos](#), a global leader of AI-powered digital transformation, today announced it has been named a **Leader in the ISG Provider Lens® 2025 Global report for Insurance Digital Engineering Services**, recognizing its ability to help insurers modernize complex technology landscapes and embed AI-driven intelligence across underwriting, claims and customer engagement.

The recognition highlights Atos' strength in combining deep insurance domain expertise with advanced digital engineering, enterprise data platforms and AI accelerators to enable faster product innovation, operational efficiency and improved policyholder experience.

The report recognizes Atos' differentiated approach that combines industry-specific engineering frameworks, AI-enabled software development and deep partnerships with leading insurance platforms. This enables insurers to accelerate modernization programs while reducing transformation risk and improving speed-to-market.

### **Analyst Perspective**

Commenting on the findings of the report, **Ashish Jhajharia, Lead Analyst – Insurance at ISG**, said: *"By modernizing insurance enterprises' application landscapes through its intelligent development frameworks, Atos enables them to harness digital innovation, enhance operations and CX and achieve tangible transformation outcomes."*

ISG positioned Atos among the global Leaders in Insurance Digital Engineering Services, recognizing its ability to modernize insurance application landscapes through intelligent development frameworks and advanced technologies that enhance operational efficiency and customer experience.

### **Industry and Technology Capabilities**

Atos combines deep insurance industry expertise with advanced digital engineering, AI and enterprise data capabilities to support insurers across the full value chain, including underwriting, claims, policy administration and distribution.

Atos supports leading insurers globally in modernizing core platforms, accelerating digital product development and deploying AI-powered automation across underwriting and claims operations.

Capabilities highlighted in the report include:

- **Insurance Platform Engineering:** Atos delivers modernization programs across leading insurance core platforms including Guidewire, Duck Creek and Sapiens, alongside Life & Retirement platforms such as FAST, ALIP and DXC CyberLife, supported by proprietary accelerators designed to accelerate transformation programs.
- **AI-Driven Digital Engineering:** The Atos Polaris AI Platform enables the development and governance of enterprise-grade autonomous AI agents, supporting AI-augmented software engineering, automated quality assurance and intelligent application lifecycle management.
- **Frictionless Underwriting:** GenAI-powered underwriting capabilities automate document analysis, risk extraction and scoring, enabling faster and more accurate underwriting decisions using advanced natural language processing and machine learning models.
- **Intelligent Claims Processing:** AI-enabled claims solutions leverage conversational AI, computer vision and machine learning to automate triage, damage assessment and fraud detection, improving claims settlement speed while reducing operational costs.

## Industry Portfolio Perspective

**Srini Gummadavelly, Global Head of Industry Atos, said:**

*"We are delighted to be recognized as a leader by ISG. At a time when innovation is rapidly accelerating and can be disruptive, this recognition comes as a confirmation that our clients can count on our expertise and commitment to support them in delivering AI-powered digital engineering services for the global insurance industry."*

**David Mullins, Financial Services & Insurance Portfolio Executive at Atos, said:**

*"Digital engineering is becoming a strategic lever for insurers to transform legacy technology environments into intelligent, data-driven platforms for innovation. By combining deep insurance expertise with AI accelerators and enterprise data platforms, Atos helps insurers modernize faster while embedding intelligence across underwriting, claims and customer engagement."*

## About the ISG Provider Lens® Report

The **ISG Provider Lens® Insurance Services – Strategic Capabilities (Insurance Digital Engineering Services) report** evaluates service providers based on strategy, innovation, market presence and technology capabilities, providing enterprise buyers with a comprehensive view of providers supporting insurance digital transformation initiatives.

The study evaluates providers delivering digital engineering services across the insurance ecosystem, including product development, platform modernization, analytics and AI-enabled customer engagement capabilities.
