

Award

Atos honored as Silver Stevie® award winner for Excellence in Agentic AI Deployment

Paris, France – August 4, 2026 – [Atos](#), a global leader of AI-powered digital transformation, today announces it has been named the winner of a Silver Stevie® Award “in the Excellence in Agentic AI Deployment” category worldwide, in the third annual [Stevie Awards for Technology Excellence](#).

The Silver Stevie Award recognizes Atos’ leadership in turning agentic AI from an emerging concept into a secure, production-grade enterprise capability. The jury acknowledged Atos for moving agentic AI beyond experimentation and into real-world enterprise operations, with autonomous agents engineered for complex, regulated and mission-critical environments. The recognition validates the maturity of Atos’ approach, combining scalable deployment with sovereignty, cybersecurity, explainability, robust governance, human oversight, and seamless integration into existing enterprise estates.

It also highlights Atos’ ability to translate agentic AI ambition into measurable business impact. From client deployments to its own client zero transformation, Atos has demonstrated how autonomous agents can drive productivity, efficiency, modernization and improved service outcomes while maintaining the trust and accountability enterprises require.

The Stevie Awards for Technology Excellence celebrate the accomplishments of individuals, teams, and organizations shaping the future of technology across all industry sectors. More than 180 professionals worldwide participated in the judging process to select this year’s honorees.

Jennifer Ferrara, global head of agentic AI transformation, Atos Group, said *“We are proud to receive this recognition, which reflects the relevance of our AI services and the expertise of our teams in helping organizations deploy AI responsibly and at scale.”*

Members of the jury commented: *“Atos has demonstrated impressive leadership in enterprise agentic AI, successfully operationalizing autonomous AI at scale through a secure, governance-first platform that delivers measurable business value across both internal operations and complex client environments.”*

Atos helps organizations operationalize agentic AI in ways that are secure, controlled and aligned to enterprise priorities. Through Atos Sovereign Agentic Studios, the Group brings together advisory, engineering and delivery capabilities to identify high-value use cases,

design responsible agent workflows and support adoption across business and technology teams.

Atos' strategy is built on three mutually reinforcing pillars: Agentic AI, Digital Sovereignty and Cybersecurity. Supported by Atos Amplify and a globally integrated delivery model, Atos combines industry expertise with an operator's discipline to turn AI strategy into practical, governed AI transformation for complex and mission-critical environments.

About the Stevie Awards

The [Stevie® Awards](#), widely recognized as the world's premier business awards, are nicknamed the Stevies, derived from the Greek word stephanos, meaning "crowned." The Stevie Awards are conferred through nine programs: the Asia-Pacific Stevie Awards, the German Stevie Awards, the Middle East & North Africa Stevie Awards, The American Business Awards®, The International Business Awards®, the Stevie Awards for Great Employers, the Stevie Awards for Women in Business, the Stevie Awards for Technology Excellence, and the Stevie Awards for Sales & Customer Service.

The Stevie Awards receive more than 12,000 nominations each year from organizations in more than 70 nations. Honoring organizations of all types and sizes and the people behind them, the Stevies recognize outstanding performances in the workplace worldwide.
