

From reactive operations to Autonomous IT

Autonomous Cloud Operations

Atos

Heavy investment. Flat outcomes.

Here are the top 4 reasons for this:

Delayed MTTR and rising operational toil

Scarce SREs, ops engineers and cloud architects

Budgets drained by tech debt

Stalled initiatives and compliance drift

Accelerate your cloud journey with an agentic AI framework that is running inside your stack.

Meet Digital Engineer

Digital Engineer, powered by Atos Polaris AI, is an autonomous delivery framework that enhances cloud operations with self-healing capabilities and human oversight — across any cloud environment.

How it works

A continuous loop under your governance policies :

Observe > Reason > Act > Learn

01 | Observe

Telemetry and logs detect anomalies and predict incidents.

02 | Reason

Diagnose root-cause remediations with your policy in mind.

03 | Act

Autonomous execution via your existing tools.

04 | Learn

Capture outcomes and improve the next run.

Where do you begin?

Start with one. Scale to all four.

Incident

Autonomous resolution in seconds

< 2 min

FinOps

Continuous cloud cost optimization

20–30% saved

Alerts

Hundreds of alerts become one incident

85% less noise

Compliance

Drift auto-fixed or flagged per policy

Audit-ready

What you'll achieve

Outcomes in weeks, with an Atos edge.

Up to 60%

fewer major incidents

>50%

faster fault resolution

Up to 35%

lower operating cost

50%

CSAT improvement

Why choose Atos

Governed autonomy with human-in-the-loop, policy-as-code (OPA), and a complete audit trail

Outcome-based commercials with autonomy-level pricing

Any cloud, any stack -> seamless integration of public, hybrid, sovereign or edge with ServiceNow, Datadog and/or Splunk

One partner, end-to-end for advisory, modernization and autonomous operations

More than 100 pre-built agents, including Incident, FinOps, SecOps and compliance, available for customization

Powered by Atos and a leading cloud partner ecosystem

Digital Engineer is delivered through a carefully selected partner ecosystem that strengthens every stage of your cloud and AI transformation – from modernization to autonomous operations.

Ready to start your autonomous cloud operations journey ?

Start with a 2-hour discovery workshop with an Atos expert.

Assess your environment and find the autonomous operations that create the most value.

About Atos

[Atos](#) is the Atos Group brand dedicated to AI-powered, secure, end-to-end digital services. Atos designs, develops, and operates critical digital environments that drive performance, resilience and sovereignty, helping public and private organizations worldwide retain control over their data and infrastructures, while meeting regulatory requirements.

With more than 52,000 employees serving over 4,500 clients across 54 countries, Atos helps modernize core IT systems, accelerate cloud and data transformation, strengthen cybersecurity, and deliver secure digital workplace environments to support its clients, its employees and society. Atos also provides consulting and advisory services through its Atos Amplify brand.

A trusted partner in operating complex and mission-critical environments, Atos supports organizations across highly regulated and sovereign contexts.
