

Atos awarded EcoVadis Gold Medal, ranking among the top 5% of companies assessed worldwide

Paris, France, October 7, 2026 - Atos, a global leader in AI-powered digital transformation, today announces that it has been awarded the EcoVadis Gold Medal for its sustainability performance. This recognition places Atos among the top 5% of all companies assessed by EcoVadis worldwide over the previous 12 months.

With an improved overall score of 85 out of 100, one point higher than in the previous assessment, Atos continues to demonstrate the strength and maturity of its sustainability management system. The assessment covers four key areas: Environment, Labor & Human Rights, Ethics, and Sustainable Procurement.

Atos achieved particularly strong results in Ethics, with a score of 97 out of 100, Environment, with 96 out of 100, and Sustainable Procurement, with 86 out of 100.

"The EcoVadis Gold Medal recognizes the sustained commitment of our teams to embedding sustainability across our operations and business relationships. By improving our overall score to 85 out of 100 and ranking among the top 5% of companies assessed worldwide, Atos has once again demonstrated the strength of its sustainability management system and its commitment to continuous progress across its environmental, social, ethical and responsible procurement priorities," said **Alexandra Knupe, Group Head for Corporate Social Responsibility, Atos Group.**

The EcoVadis assessment is an important independent benchmark of Atos' sustainability management system. It supports the Group's commitment to transparent and responsible business practices and complements its broader sustainability strategy and reporting framework.
